Capital Adequacy Ratio

Consolidated

We calculate the consolidated BIS capital adequacy ratio in line with provisions of Article 52-25 of the Banking Act and on the basis of calculation formula prescribed under the criteria for judging whether a bank holding company and its subsidiaries' capital adequacy ratios are appropriate in light of assets held (the Financial Services Agency 2006 Notification No. 20, hereinafter referred to as the "FSA Bank Holding Company Capital Adequacy Notification").

As of the end of March 2020, we used the Advanced Internal Ratings-Based (IRB) Approach for the calculation of credit risk-weighted assets, the Advanced Measurement Approach for the calculation of operational risk, and market risk regulations.

Scope of Consolidation

Consolidated

Notes: 1. On the previous page, Sumitomo Mitsui Trust Holdings, Inc., Sumitomo Mitsui Trust Bank, Limited and specific purpose companies (SPCs) engaging in liquidation of receivables, subject to AIRB and FIRB, are counted. On this page, Group companies (i.e. Sumitomo Mitsui Trust Guarantee Co., Ltd., Sumishin Guaranty Company Limited, Sumitomo Mitsui Trust Card Co., Ltd., Sumitomo Mitsui Trust Loan & Finance Co., Ltd., Sumitomo Mitsui Trust Panasonic Finance Co., Ltd., and Sumitomo Mitsui Trust Club Co., Ltd.), subject to FIRB, are counted.

2. Column a: As for "Corporate Exposures (excluding specialised lending)," "Specialised lending (subject to the PD/LGD Approach)," "Equity exposures (subject to the PD/LGD Approach)," and "Purchased receivables (other than those for corporates, etc. subject to top-down approach)," the same rating system (same PD) is used, and so these portfolio classifications have been integrated into "Corporate Exposures". In addition, different rating systems (PD) are used in Japanese rating and Non-Japanese rating, and so "Corporate Exposures" are classified into "Japanese" and "Non-Japanese."

3. Column c: With reference to the internal rating for each obligor, the range of external rating is stated in accordance with the relation between the internal rating and external rating of the internal rules for the SuMi TRUST Group.

4. The PD estimation of the SuMi TRUST Group covers the one-year default results with the reference date being the end of September every year. Accordingly, Column d and Column e were obtained with the reference date being the end of September 2018. In addition, Column g and Column h were obtained by counting the number of defaulted obligors from the end of September 2018 to the end of September 2019.

5. Column f to Column h: "Qualifying revolving retail exposures," "Residential mortgage exposures," and "Other retail exposures" are tallied with the number of loans, because it is difficult to grasp the number of some obligors.

6. "Average historical annual default rate (5 years)" in column i represents the average value of the actual default rate for each year of the latest seven years rather than the latest five years.

7. The scope of application of the major model used in the consolidation range specified by the capital regulatory standards is determined while considering the portfolio classifications specified by regulations and credit decisions based on the risk driver of each portfolio (explanatory variables of the adopted rating model, etc.). "Credit RWA amounts ratio" of each internal model is stated for each portfolio*.

* "Credit RWA amounts ratio" (obtained with the reference date being the end of September 2019) is the ratio of RWA amounts for each portfolio to the total RWA amounts subject to the IRB approach (excluding counterparty credit risk, the credit risk related to securitisation transactions, and the credit risk related to funds).

8. In the ">10% to <100%" category of "Other retail exposures" of entities subject to FIRB, "Average historical annual default rate (5 years)" in Column i exceeds "Weighted average PD (EAD weighted)" in Column d. This is attributable to the difference in the method for obtaining average values. The appropriateness of the PD estimation in each pool classification is examined regularly every year.

Qualitative Disclosure Items for the Liquidity Coverage Ratio (LCR) on a consolidated basis

(1) Items concerning fluctuations in the LCR over time

Our consolidated LCR has trended steadily for the most part in the past two years.

(2) Items concerning evaluation of the LCR level

Our consolidated LCR satisfies the regulated level (100%) as required under liquidity ratio regulations and the actual LCR is roughly in line with our initial forecast. Up ahead, we do not expect our LCR to deviate significantly from the current level.

(3) Items concerning the composition of totals for eligible high-quality liquid assets

The majority of our eligible high-quality liquid assets are reserve deposit held at central banks and sovereign bonds. There have been no material fluctuations in the composition of currencies, their types and locations. Furthermore, there has been no material difference between totals for eligible high-quality assets and net cash outflows in major currencies.

(4) Other items concerning LCR

We apply neither the "treatment for qualifying operational deposit" nor the "additional collateral required to market valuation changes based on the scenario approach."

Furthermore, taking account of the impact to LCR, we are using month-end data in lieu of daily data for the consolidated subsidiary companies of minor importance with practical restrictions.

A "person receiving a substantial amount of compensation" refers to a person who receives compensation in excess of a certain threshold amount from SuMi TRUST Holdings or its significant consolidated subsidiaries. Such a threshold amount is set at ¥40 million within the SuMi TRUST Holdings Group. This threshold amount has been determined based on

the average compensation for officers paid in fiscal year 2019 (excluding the compensation paid to the officers who were newly appointed or retired in the fiscal year), and is commonly applicable across all significant consolidated subsidiaries, as more or less the same level and system of compensation is shared among all significant consolidated subsidiaries.

With respect to a person receiving lump-sum retirement benefit, this amount is first wholly deducted from the amount of compensation, then the "lump-sum retirement benefit divided by the number of years of service" is added back to calculate the deemed compensation for the purpose of determining whether the compensation is substantial or not.

The Committee shall prescribe policy on decisions on the content of remuneration for individual

directors and executive officers*¹ of SuMi TRUST Holdings, and decide the content of remuneration for individual executive officers*¹ and directors. In addition, the amounts of remuneration for individual executive officers*² of SuMi TRUST Holdings are reported to the Compensation Committee.

The Compensation Committee is chaired by an external director, and a majority of the committee members are external directors. The committee oversees and checks the operation of the remuneration system for directors, executive officers*¹, and executive officers*², and has the authority to determine the policy for setting remuneration while being independent of the business promotion department.

Note: The total amount of compensation, etc. is not stated as the amount equivalent to the compensation related to the execution of the duties for the Compensation Committee, etc. alone cannot be calculated separately.

2. Adequacy Evaluation of Design and Operation of the Compensation System for Applicable Officers and Employees of SuMi TRUST Holdings

(1) Policies Concerning Compensation, etc. for Applicable Officers and Employees

(i) Policies Concerning Compensation for “Applicable Officers”

The Compensation Committee determines the content of remuneration for individual directors and executive officers.*¹

Our aim is for the remunerations for directors and executive officers*¹ to function effectively as an incentive for improvement of corporate performance and expansion of enterprise value in order to realize stable and sustainable growth of the SuMi TRUST Group, including its core subsidiary, SuMi TRUST Bank. Furthermore, we have created a remuneration structure that considers the balance of short-term incentives and medium- to long-term incentives. This is to ensure remuneration that is not focusing on single-year performance evaluation in which short-term contribution to profit is emphasized, but focusing on officers’ qualifications and capabilities as senior management, and based on a comprehensive evaluation that reflects assessment of medium- to long-term performance. As a holding company, in order to ensure that the supervisory function is fully exercised at each Group company, SuMi TRUST Holdings determines individual remuneration based on an accurate recognition of the role that corporate officers are expected to play in terms of business management and their results, and highly transparent, fair and objective evaluations.

Furthermore, we have introduced a share delivery trust system as a form of stock compensation linked to our medium-term performance to further enhance the motivation and morale of directors and executive officers so as to help drive stock price increases, improve our medium- to long-term performance, and ultimately boost shareholder profits.

(ii) Policies Concerning Compensation for “Applicable Employees, etc.”

Compensations for the applicable employees, etc. of the SuMi TRUST Group are determined by performance assessments, to reflect each employee’s contribution to corporate performance in determining a performance-linked portion and evaluating target achieving performance. The human resources departments at each company have ensured that compensation payments are not excessively performance-oriented, on the basis of the compensation system in place, current status of performance assessment and actual payment records.

On the other hand, compensations for applicable overseas employees, etc. are determined under a basic principle by which payrolls are determined based on job description and responsibility, while bonuses are determined based on performance. Meanwhile, the total compensation budget is capped locally, based on the performance of each operation, preventing excessive impact on the overall compensation fund from individual employees’ extraordinary performance.

(2) Regarding the influence of the overall level of remuneration on capital

(i) Officer compensation

The Compensation Committee determines remuneration for officers after checking the situation of profit and loss in the current term and the consistency with future management strategies. It has been confirmed that the total payment amount of officer compensation in the current term does not produce significant effects, considering the profit level, etc. in the current term.

(ii) Salaries for employees

As for the salaries for employees, the business situation of SuMi TRUST Holdings is reflected in the part that changes according to the performance of SuMi TRUST Holdings and individuals and bonuses. It has been confirmed that the total payment amount of salaries for employees in the current term does not produce significant effects, considering the profit level, etc. in the current term.

(3) Regarding the monitoring of the operation of the remuneration system

As for variable remuneration, such as directors’ bonuses, the Compensation Committee monitors the operation of the remuneration system by checking the ratio of variable remuneration to the total amount of remuneration and the appropriateness of the payment amount, and confirms that performance-based pay is not excessive.

3. Regarding the Items about the Consistency between the Systems of Remuneration for Target Executives and Employees of SuMi TRUST Holdings and Risk Management, and the Linkage between the Remuneration and Performance of Target Employees of the SuMi TRUST Group

The remunerations for target executives are determined by the Compensation Committee. Budget allocation is conducted while taking into account the financial condition, etc. of the SuMi TRUST Group in order to determine remuneration for target employees.
