# SuMi TRUST

## Symbol Mark

The symbol mark features “Future Bloom” representing the purpose of Sumitomo Mitsui Trust Group, which is “creating new value with the power of trusts and let prosperous future for our clients and society bloom”.

The four clear petals show our “Mission” to each stakeholder of clients, society, shareholders and employees. The four colors of petals represent our value (codes of conduct): “Truthfulness and Loyalty” (natural green), “Dedication and Development” (golden orange), “Trust and Creativity” (blue green), and “Self-help and Self-discipline” (sky blue).

## Corporate Color

The corporate color is “Future Blue,” which represents the integration of the sense of value that the symbol mark implies, and evokes the closeness and the future.

## Financial Data:

## Notes to the Interim Consolidated Financial Statements (Unaudited)

**Basis of Presentation of Financial Statements**

The accompanying interim consolidated financial statements (banking account) have been prepared from the accounts maintained by Sumitomo Mitsui Trust Holdings, Inc. ("SuMi TRUST Holdings") and its consolidated subsidiaries (together, the "SuMi TRUST Group") in accordance with accounting principles generally accepted in Japan and certain accounting and disclosure rules under the Financial Instruments and Exchange Act of Japan and the Banking Act of Japan, which are different in certain respects as to the application and disclosure requirements of International Financial Reporting Standards.

In preparing these interim consolidated financial statements, the interim consolidated financial statements of SuMi TRUST Holdings issued in Japan have been reclassified and rearranged in order to present them in a form that is more familiar to readers outside Japan.

The interim consolidated financial statements are stated in Japanese yen, the currency of the country in which SuMi TRUST Holdings is incorporated and operates. The translation of Japanese yen amounts into U.S. dollar amounts is included solely for the convenience of readers outside Japan. The translation has been made at the rate of ¥144.81 to U.S. \$1, the approximate rate of exchange as of September 30, 2022. Such translations should not be construed as representations that the Japanese yen amounts could be converted into U.S. dollars at that or any other rate.

Amounts less than one million Japanese yen have been rounded down and amounts less than one million U.S. dollars have been rounded off. As a result, total balances may not be equal to the sum of individual amounts.

**Significant Accounting Policies and Practices****1. Scope of Consolidation**

(1) Consolidated Subsidiaries as of September 30, 2022:

57 companies

Principal Company:

Sumitomo Mitsui Trust Bank, Limited ("SuMi TRUST Bank")

Sumitomo Mitsui Trust Asset Management Co., Ltd.

Nikko Asset Management Co., Ltd.

Sumitomo Mitsui Trust Loan & Finance Co., Ltd.

Sumitomo Mitsui Trust Panasonic Finance Co., Ltd.

Changes in the consolidated subsidiaries during the interim period ended September 30, 2022, are as follows:

STB Finance Cayman Limited and one other company are excluded from the scope of consolidation effective from the interim period ended September 30, 2022, due to liquidation.

**(2) Unconsolidated Subsidiaries**

Principal Companies:

Cattleya Co., Ltd.

Apollo Aligned Alternatives (C-2), L.P.

Cattleya Co., Ltd. and 10 other companies are excluded from the scope of consolidation in accordance with Article 5, Paragraph 1, Item 2 of "Ordinance on Terminology, Forms and Preparation Methods of Interim Financial Statements, etc.," because they are operators engaged in leasing activities through silent partnership arrangements and their assets and profits/losses do not belong to the subsidiaries.

Apollo Aligned Alternatives (C-2), L.P. and other unconsolidated subsidiaries are excluded from the scope of consolidation because they are immaterial to the extent that excluding such companies from consolidation would not prevent a reasonable assessment of the corporate group's financial position and financial results. Such materiality is determined based on the size of their assets, ordinary income, net income (amount corresponding to SuMi TRUST Holdings' interest in subsidiaries), retained earnings (amount corresponding to SuMi TRUST Holdings' interest in subsidiaries), accumulated other comprehensive income (amount corresponding to SuMi TRUST Holdings' interest in subsidiaries), and other financial data.

**2. Application of the Equity Method**

(1) Unconsolidated Subsidiaries Accounted for by the Equity Method:

None

(2) Affiliated Companies Accounted for by the Equity Method:

29 companies

Principal Companies:

Custody Bank of Japan, Ltd.

SBI Sumishin Net Bank, Ltd.

Changes in the affiliated companies accounted for by the equity method during the interim period ended September 30, 2022, are as follows:

Yuryo Loan Co., Ltd. and three other companies are excluded from the scope of the application of the equity method effective from the interim period ended September 30, 2022, due to their reduced significance on the consolidated financial statements.

### (3) Unconsolidated Subsidiaries and Affiliated Companies That Are Not Accounted for by the Equity Method

Principal Companies:

Cattleya Co., Ltd.

Apollo Aligned Alternatives (C-2), L.P.

Cattleya Co., Ltd. and 10 other companies are excluded from the scope of the application of the equity method in accordance with Article 7, Paragraph 1, Item 2 of "Ordinance on Terminology, Forms and Preparation Methods of Interim Financial Statements, etc.," because they are operators engaged in leasing activities through silent partnership arrangements, and their assets and profits/losses do not belong to the subsidiaries.

Apollo Aligned Alternatives (C-2), L.P. and other unconsolidated subsidiaries and affiliated companies that are not accounted for by the equity method are excluded from the scope of application of the equity method because such exclusion would not materially affect the interim consolidated financial statements. Such materiality is determined based on the size of their net income (amount corresponding to SuMi TRUST Holdings' interest in subsidiaries and affiliated companies), retained earnings (amount corresponding to SuMi TRUST Holdings' interest in subsidiaries and affiliated companies), accumulated other comprehensive income (amount corresponding to SuMi TRUST Holdings' interest in subsidiaries and affiliated companies), and other financial data.

### 3. Interim Balance Sheet Dates of the Consolidated Subsidiaries

(1) The interim balance sheet dates of consolidated subsidiaries are as follows:

October 31:	2 companies
February 28:	1 company
March 31:	4 companies
May 31:	1 company
June 30:	6 companies
September 30:	43 companies

(2) Subsidiaries are consolidated using the interim financial statements as of the following dates:

- Subsidiaries with an interim balance sheet date of October 31: Provisionally prepared interim financial statements as of July 31
- A subsidiary with an interim balance sheet date of February 28: Provisionally prepared interim financial statements as of August 31
- Subsidiaries with an interim balance sheet date of March 31: Provisionally prepared interim financial statements as of September 30
- A subsidiary with an interim balance sheet date of May 31: Provisionally prepared interim financial statements as of August 31
- Other subsidiaries: Interim financial statements as of their respective interim balance sheet dates.

Material transactions arising between the interim consolidated balance sheet date, September 30, 2022, and the above interim balance sheet dates of consolidated subsidiaries have been reflected in the interim consolidated financial statements.

### 4. Significant Accounting Policies

(1) Trading Assets/Liabilities and Income/Expenses

Trading account activities are conducted to seek profits by taking advantage of short-term fluctuations in interest rates, currency rates, financial markets or other indicators, or intermarket differences (for trading purposes). The fluctuations in such items are presented as "Trading Assets" or "Trading Liabilities" in the interim consolidated balance sheets on a trade-date basis, and gains and losses from such transactions are presented as "Trading Income" or "Trading Expenses" in the interim consolidated statements of income.

For the measurement of trading assets and trading liabilities, securities and monetary claims are stated at their fair values as of the interim consolidated balance sheet date, and trading-related financial derivatives, such as swaps, futures, and options, are stated at the amounts that would be settled if they were terminated on the interim consolidated balance sheet date.

Trading income and trading expenses include interest income or expenses, adjusting valuation differences of securities and monetary claims during the interim period

and differences in resulting gains or losses from the settlement of financial derivatives assuming that the settlement was made as of September 30, 2022.

Regarding valuation of specific market risks and credit risks for derivative transactions, fair value is measured in groups of financial assets and financial liabilities with the basis of the net asset or liability after offsetting financial assets and financial liabilities.

## (2) Securities

(a) Under the accounting standards for financial instruments in Japan, SuMi TRUST Holdings is required to determine the purposes for holding each security and classify such security into (i) securities held for trading purposes ("Trading Securities"), (ii) debt securities intended to be held to maturity ("Held-to-Maturity Debt Securities"), (iii) equity securities issued by subsidiaries and affiliated companies, or (iv) all other securities that are not classified in any of the above categories ("Available-for-Sale Securities"). "Held-to-Maturity Debt Securities" are carried at amortized cost using the moving-average method (the straight-line method). Equity securities issued by unconsolidated subsidiaries and affiliated companies not accounted for by the equity method are stated at moving-average cost. "Available-for-Sale Securities" are valued at the market price (cost of securities sold is calculated using primarily the moving-average method). Equity securities with no market prices are carried at cost using the moving-average method.

Valuation differences on "Available-for-Sale Securities" are recorded as a separate component of net assets and reported in the interim consolidated balance sheets.

(b) Securities in money held in trust are classified and accounted for in the same manner as those described in 4. (1) and 4. (2) (a) above.

## (3) Financial Derivatives

Financial derivatives, excluding those for trading purposes, are stated at fair value.

Regarding valuation of specific market risks and credit risks, fair value is measured in groups of financial assets and financial liabilities with the basis of the net asset or liability after offsetting financial assets and financial liabilities.

## (4) Depreciation and Amortization Methods

### (a) Tangible fixed assets other than lease assets

Tangible fixed assets are depreciated using primarily the straight-line method.

Useful lives of major asset categories:

Buildings: 3 to 60 years

Others: 2 to 20 years

### (b) Intangible fixed assets

Intangible fixed assets are amortized using the straight-line method. Software for internal use is amortized over the useful life specified by SuMi TRUST Holdings or the consolidated subsidiaries, which is generally five years.

Goodwill is amortized over a reasonable number of years, determined for each case, up to a maximum of 20 years. However, if immaterial, goodwill is expensed in its entirety in the year in which it arises.

### (c) Lease assets

The lease assets under "Tangible Fixed Assets" that are related to finance leases that do not transfer ownership of the lease assets to lessees are depreciated and amortized using the straight-line method over the lease term, assuming a residual value of zero.

## (5) Allowance for Loan Losses

The major domestic consolidated subsidiaries record allowance for loan losses in accordance with internally established criteria for write-offs and allowance for loan losses.

For claims against borrowers that have initiated special liquidation proceedings or other bankruptcy proceedings ("legal bankruptcy") and against borrowers that are in a substantially similar adverse condition ("virtual bankruptcy"), the allowance is provided based on the amount of claims, after the write-off stated below, net of the expected amount of recoveries from collateral and guarantees. For claims against borrowers that have not yet initiated bankruptcy proceedings, but are very likely to become bankrupt in the future ("possible bankruptcy"), an allowance is provided for the amount deemed necessary based on the overall assessment of the borrowers' solvency, after deducting the amount expected to be collected through the disposal of collateral or execution of guarantees from the claims.

For claims against large borrowers with certain credit risks and credit amounts that are classified as possible bankruptcy borrowers, restructured loan borrowers, or close-observation

borrowers, if future cash flows from the collection of the principal and interest can be reasonably estimated, the allowance is provided for the difference between the present value of expected future cash flows discounted at the contracted interest rate prior to the loan restructuring and the carrying amount of the claim (the "estimated cash flow method").

For claims that are classified as other than those above, the allowance is primarily provided based on the estimated loan losses over the next one or three years, which are calculated based on the average historical loan-loss ratios during a certain period on the basis of historical loan losses over the past one or three years, then adjusted based on future forecast.

All claims are assessed at branches and credit supervision departments based on the criteria for self-assessment of asset quality. The Risk Management Department, which is independent from operating sections, monitors the results of such assessments.

As for the other consolidated subsidiaries, the allowance for loan losses for general claims is provided based on the historical loan-loss ratios, and the allowance for loan losses for specific claims, such as possible uncollectible claims, is provided based on the estimate of unrecoverable amount for each claim.

For claims against borrowers who are legally bankrupt or virtually bankrupt with collateral or guarantees, the amounts of claims, net of amounts expected to be collected through the disposal of collateral or through the execution of guarantees, are deemed uncollectible, and such uncollectible amount is directly deducted from the amounts of claims. The deducted amount was ¥26,959 million (U.S. \$186 million) for the six months ended September 30, 2022.

#### (Additional Information)

There is no significant change to the assumption for the adjustments made to loan losses based on future forecast described in the "Significant Accounting Estimates" section of the Annual Report for the fiscal year ended March 31, 2022, during the six-month period ended September 30, 2022.

#### (6) Provision for Bonuses

A provision for bonuses is provided for the estimated employee bonuses attributable to the current interim period.

#### (7) Provision for Directors' Bonuses

A provision for directors' bonuses is provided for the estimated directors' bonuses attributable to the current interim period.

#### (8) Provision for Stocks Payment

A provision for stocks payment is provided for estimated stock-based payments to directors of SuMi TRUST Holdings and some consolidated subsidiaries under a stock-based compensation scheme that have been earned by September 30, 2022.

#### (9) Provision for Reward Points Program

A provision for reward points program is provided for the use of points granted to holders of Diners Club Card and other credit cards in the amount deemed necessary based on the reasonable estimates of the points to be used in the future.

#### (10) Provision for Reimbursement of Deposits in Dormant Accounts

At SuMi TRUST Bank, a provision for reimbursement of deposits in dormant accounts is provided for the deposits that were derecognized as liabilities under certain conditions. Such provision is provided against the estimated future reimbursement to be requested by customers based on the past reimbursement record.

#### (11) Provision for Contingent Losses

A provision for contingent losses is provided for losses associated with off-balance-sheet transactions or trust transactions in the amount deemed necessary based on the estimated possible future losses.

#### (12) Accounting for Retirement Benefits

In determining the retirement benefit obligations, projected benefits to the periods up to the interim period ended September 30, 2022, are attributed based on the plan's benefit formula. Past service cost and actuarial gains or losses are expensed using the following methods:

##### Past service cost:

In principle, the full amount of past service costs is charged to profit or loss in the fiscal year they occur.

##### Actuarial gains or losses:

Actuarial differences are expensed using the

straight-line method, primarily over 10 years, within the employees' average remaining service period, commencing from the next fiscal year of incurrence.

Some consolidated subsidiaries adopt the simplified method in calculating liabilities for retirement benefits and retirement benefit expenses for lump-sum retirement benefit plans, recording liabilities at amounts that would be required for voluntary termination at the end of the current interim period.

#### (13) Basis for Recognition of Significant Revenues and Expenses

The SuMi TRUST Group's main revenues from contracts with customers are "Net Trust Fees" and "Revenue from Service Transactions" such as asset management and administration fees, stock transfer agency fees, real estate brokerage fees, and investment trust and insurance sales fees.

The timing of satisfying performance obligation in each transaction is determined based on the respective economic conditions as follows. The amount of consideration for a transaction is generally received within approximately six months after the satisfaction of its performance obligation and does not include significant financing components.

Trust fees and asset management and administration fees are recorded mainly in the "Investor Services Business," "Asset Management Business," and "Retail Business." The SuMi TRUST Group is obligated to perform asset management and administrative services in accordance with the terms of trust agreements and various contracts. The SuMi TRUST Group recognizes revenues from these performance obligations over a period of time since the benefits are expensed by the customer as the daily services are provided.

Stock transfer agency fees are mainly recorded in the "Wholesale Business." The SuMi TRUST Group is obligated to perform shareholder registry management services in accordance with agreement on entrustment of management of shareholder registry. The SuMi TRUST Group recognizes revenues from this performance obligation over a period of time since the benefits are expensed by the customer as the daily services are provided.

Real estate brokerage fees are recorded mainly in the "Real Estate Business." The SuMi TRUST Group is obligated to perform real estate brokerage services based on real estate brokerage contracts. Revenues are recognized when the performance obligation is satisfied at the time when the

real estate sales contract is executed or when the property is delivered. The timing of satisfying performance obligation is determined based on the significance of the duties after the execution of the real estate sales contract.

Fees on sales of investment trusts and insurance are mainly recorded in the "Retail Business." The SuMi TRUST Group is obligated to provide product explanations and sales administrative services based on the terms and conditions of transactions and consignment agreements. Revenues are recognized when the performance obligation is satisfied at the time of product sale.

#### (14) Foreign Currency Translation

Assets and liabilities of SuMi TRUST Bank that are denominated in foreign currencies and overseas branch accounts are generally translated into yen at the exchange rates prevailing at the interim consolidated balance sheet date, except for shares of stocks in affiliated companies translated into yen at the exchange rates prevailing at the acquisition dates.

Assets and liabilities of other consolidated subsidiaries that are denominated in foreign currencies are translated into yen at the exchange rates prevailing at their respective interim balance sheet dates.

#### (15) Accounting for Leases

As for the consolidated subsidiaries in Japan, income and expenses arising from transactions of finance leases that do not transfer ownership to lessees are recognized as sales and costs of goods sold when lease payments are collected.

#### (16) Hedge Accounting

##### (a) Interest-related risk hedge

SuMi TRUST Bank manages interest rate risk arising from various assets and liabilities by using financial derivative transactions. Such transactions are generally treated as deferred hedges as specified in "Treatment for Accounting and Auditing of Application of Accounting Standard for Financial Instruments in Banking Industry" (Japanese Institute of Certified Public Accountants ("JICPA") Industry Committee Practical Guidance No.24 of March 17, 2022, "Guidance No.24"). To evaluate the effectiveness of hedges designed to offset market fluctuations, hedged items, such as deposits, loans and bills discounted, and hedging instruments, such as interest rate swaps, are grouped by duration

to maturity. The effectiveness of hedges designed to fix cash flow is evaluated by verifying the correlation between the interest volatility factors for the hedged items and those for the hedging instruments.

(b) Currency-related risk hedge

SuMi TRUST Bank manages the foreign exchange risk arising from various assets and liabilities denominated in foreign currencies using financial derivative transactions. Such transactions are generally treated as deferred hedges as specified in "Treatment for Accounting and Auditing of Application of Accounting Standard for Foreign Currency Transactions in Banking Industry" (JICPA Industry Committee Practical Guidance No.25 of October 8, 2020, "Guidance No.25"). The effectiveness of hedging instruments, such as cross-currency swaps and foreign exchange swaps, as a means of mitigating the foreign exchange risk arising from monetary claims and debts denominated in foreign currencies, is evaluated by verifying that the foreign currency positions of such hedging instruments are in amounts equivalent to the corresponding monetary claims and debts denominated in foreign currencies, which are the hedged items.

Additionally, transactions intended to hedge the foreign exchange risk associated with foreign currency-denominated securities (other than bonds) are treated as portfolio hedges. Fair value hedge accounting has been adopted to account for such transactions on the conditions that specific foreign currency-denominated securities are designated in advance as hedged items and that foreign currency payables of spot and forward foreign exchange contracts exist in excess of the acquisition cost of such foreign currency-denominated securities on a foreign currency basis.

The foreign exchange risk associated with investment in the shares of stocks in foreign subsidiaries and affiliated companies is individually hedged using forward exchange contracts denominated in the same currency, and foreign currency translation adjustments arising from the hedging instruments are included in "Foreign Currency Translation Adjustments."

(c) Internal hedge transactions and others

Among derivative transactions of SuMi TRUST Bank that take place between consolidated subsidiaries or that are made internally between designated trading accounts and some other accounts, those interest rate swaps and cross-currency swaps designated as hedging instruments are carried out in accordance with standards for cover deals with external

parties, which eliminate discretion and enable strict management on hedges pursuant to Guidance No.24 and Guidance No.25. Accordingly, income or expenses arising from such interest rate swaps and cross-currency swaps are recognized as profits or losses, or deferred, rather than eliminated.

Deferred hedge accounting has been adopted for certain assets and liabilities by individual transactions.

Other consolidated subsidiaries account for such transactions as deferred hedges or exceptional treatment for interest rate swaps.

(17) Scope of Cash and Cash Equivalents in the Interim Consolidated Statements of Cash Flows

The balance of "Cash and Cash Equivalents" in the interim consolidated statements of cash flows is equivalent to the balance of "Cash and Due from Banks" presented in the interim consolidated balance sheets (cash and due from the Bank of Japan for SuMi TRUST Bank).

(18) Nondeductible Consumption Taxes Associated with Assets

Nondeductible consumption taxes and local consumption taxes associated with assets are recorded as expenses in the current interim period.

(19) Adoption of Group Tax Sharing System

SuMi TRUST Holdings adopts the group tax sharing system.

(20) Adoption of Accounting Treatment and Disclosure Under Group Tax Sharing System

SuMi TRUST Holdings and some of its consolidated subsidiaries in Japan have shifted from the consolidated taxation system to the group tax sharing system effective from the six months ended September 30, 2022. In accordance with this change, the treatment of accounting and disclosure of corporation taxes, local corporation taxes, and tax effect accounting under the group tax sharing system are in accordance with "Practical Solution on the Accounting and Disclosure Under the Group Tax Sharing System" (Accounting Standards Board of Japan (ASBJ) Practical Issues Task Force (PITF) No.42, August 12, 2021, "ASBJ PITF No.42"). In accordance with Paragraph 32 (1) of ASBJ PITF No.42, the change in accounting policy resulting from the adoption of ASBJ PITF No.24 is not expected to have any effect on the consolidated financial statements.

## Changes in Accounting Policies

### Application of Implementation Guidance on Accounting Standard for Fair Value Measurement

SuMi Trust Holdings has applied the "Implementation Guidance on Accounting Standard for Fair Value Measurement" (ASBJ Guidance No.31, June 17, 2021, "Guidance for Application of Fair Value Measurement") from the beginning of the six-month period ended September 30, 2022. In accordance with the transitional measures stipulated in Paragraph 27-2 of the Guidance for Application of Fair Value Measurement, SuMi Trust Holdings has decided to apply the new accounting policy set forth by the Guidance for Application of Fair Value Measurement prospectively. Thus, certain investment trusts, which were previously stated at the acquisition cost on the consolidated balance sheet, are now measured at fair value based on factors, such as the net asset value. As a result, Securities, Valuation Difference on Available-for-sale Securities, and Deferred Tax Liabilities as of September 30, 2022, increased by ¥8,305 million (U.S. \$57 million), ¥5,762 million (U.S. \$40 million), and ¥2,543 million (U.S. \$18 million), respectively. The effect of this change on per share information for the six-month period ended September 30, 2022, is immaterial.

## Additional Information

### Share Delivery Trust for the Directors

#### 1. Overview

SuMi Trust Holdings applies the Performance-Based Stock Compensation System (the "System") with trusts to SuMi Trust Holdings' directors (excluding directors who are Audit Committee members and external directors) and executive officers (as defined in the Companies Act and as defined in SuMi Trust Holdings' internal policies), and the directors (excluding directors who are Audit and Supervisory Committee members and external directors) and executive officers (as defined in the internal policies) of SuMi TRUST Bank and Sumitomo Mitsui Trust Asset Management Co., Ltd. ("SuMi TRUST AM"), which are core companies of the SuMi TRUST Group. The above mentioned directors and executive officers of SuMi TRUST Holdings, SuMi TRUST Bank, and SuMi TRUST AM are collectively referred to as the "Directors."

Under the System, a portion of the remuneration of the Directors is linked to performance targets set out in SuMi TRUST Holdings' current Midterm Management Plan. By paying part of the remuneration for Directors in shares, the linkage between the remuneration of the Directors and the performance of the SuMi TRUST Group becomes clearer, and the Directors share the same benefits and risks of share price fluctuations with the shareholders. Through these initiatives, the System is designed to heighten the Director's attention to enhancement of medium- and long-term business performance and the corporate value of the SuMi TRUST Group.

SuMi TRUST Holdings contributes money to a trust set up under the System, and the trust acquires shares of SuMi TRUST Holdings. The Directors are awarded points based on the Shares Delivery Rules established individually by SuMi TRUST Holdings, SuMi TRUST Bank, and SuMi TRUST AM, and the number of shares of SuMi TRUST Holdings corresponding to the points granted are issued to the Directors through the trust.

#### 2. Remaining Number of Shares of SuMi TRUST Holdings Held by the Trust

The carrying amount and the number of shares of SuMi TRUST Holdings held by the Trust as of September 30, 2022, was ¥1,272 million (U.S. \$9 million) and 371 thousand shares. The shares are recorded as treasury stock in the net assets section of the interim consolidated balance sheets.

## Notes to the Interim Consolidated Balance Sheets

### 1. Securities

Loans Past Due Three Months or More	2,685	19
Restructured Loans	33,268	230
<b>Total</b>	<b>¥ 167,484</b>	<b>\$ 1,157</b>

Bankrupt and practically bankrupt loans are those loans that have fallen into bankruptcy due to certain reasons, including initiation of bankruptcy proceedings, start of reorganization proceedings, or submission of an application to start rehabilitation proceedings and quasi-loans.

Doubtful loans are those loans with a strong likelihood that loan principals cannot be recovered and interest cannot be received according to the contract because of difficulties in the financial conditions and business performance of debtors who are not yet legally bankrupt, excluding those

loans classified as bankrupt and practically bankrupt loans.

Loans past due three months or more are those loans for which principal or interest payments are more than three months past due (calculated from the day following the contractual payment date), excluding loans classified as bankrupt and practically bankrupt loans and doubtful loans.

Restructured loans are those loans whose terms have been modified by reducing or waiving interest, granting interest payment extensions, granting principal repayment extensions, forgiving debt, or otherwise providing some

arrangements favorable to the borrower in connection with the borrower's business restructuring or to otherwise provide support, excluding those loans classified as bankrupt and practically bankrupt loans, doubtful loans or loans past

due three months or more.

The above loans are presented at the amounts prior to deduction of allowances for loan losses.

#### 4. Bills Discounted

Bills discounted are treated as financial transactions in accordance with Guidance No.24. SuMi TRUST Holdings has a free disposal right to sell or (re)pledge such commercial bills. The total face value of such bills is as follows:

	Millions of Yen	Millions of U.S. Dollars
	Sep. 30, 2022	Sep. 30, 2022
Bills Discounted	¥ 442	\$ 3

#### 5. Assets Pledged as Collateral

Assets pledged as collateral as of September 30, 2022, consist of the following:

	Millions of Yen	Millions of U.S. Dollars
	Sep. 30, 2022	Sep. 30, 2022
Assets Pledged as Collateral:		
Securities	¥ 2,285,475	\$ 15,783

Other Assets	81,759	565
<b>Total</b>	<b>¥ 7,205,006</b>	<b>\$ 49,755</b>
Corresponding Liabilities to Assets Pledged as Collateral:		
Deposits	¥ 19,635	\$ 136
Payables under Repurchase Agreements	590,814	4,080
Borrowed Money	4,479,918	30,937

In addition to the foregoing, the following assets have been pledged as collateral for settlement of exchange and others, or as a substitution of margin of futures and others.

	Millions of Yen	Millions of U.S. Dollars
	Sep. 30, 2022	Sep. 30, 2022
Securities	¥ 581,457	\$ 4,015

"Other Assets" include initial margins of futures, security deposits, and cash collateral pledged for financial instruments. Such amounts are as follows:

	Millions of Yen	Millions of U.S. Dollars
	Sep. 30, 2022	Sep. 30, 2022
Initial Margins of Futures Markets	¥ 63,650	\$ 440
Security Deposits	24,888	172
Cash Collateral Pledged for Financial Instruments-Assets	1,275,560	8,809

## 6. Overdraft Facility Agreements and Commitment Lines of Credit

Overdraft facility agreements and committed lines of credit are agreements to extend a certain amount of credit at the customer's request as long as the terms of the agreement have not been violated. The amount of unused credit under such agreements is as follows:

	Millions of Yen	Millions of U.S. Dollars
	Sep. 30, 2022	Sep. 30, 2022
Amount of Unused Credit under Agreements	¥ 12,938,748	\$ 89,350
Attributable to Agreements Expiring within One Year or which May Be Unconditionally Cancelled at Any Time	8,464,479	58,452

The balance of unused credit will not necessarily affect the future cash flows of the consolidated subsidiaries because most of these agreements expire without credit being extended. Most of these agreements contain clauses allowing the consolidated subsidiaries to reject requests for credit outright or reduce the credit limits due to changes in financial circumstances, the need to preserve claims, or

other reasonable causes. Besides requesting collateral, such as real estate or securities, as necessary at the time of entering into the agreement, SuMi TRUST Holdings has also adopted other measures to keep its credit sound, such as periodically assessing the condition of customers' businesses following internal procedures and revising agreements, as necessary.

## 7. Revaluation Reserve for Land

In accordance with the Act on Revaluation of Land (Act No.34, promulgated on March 31, 1998), land for commercial use of SuMi TRUST Bank was revalued, and the amount equivalent to the taxes on the resulting valuation difference was recorded as a "Deferred Tax Liability for Land Revaluation" in liabilities, and the amount net of such differences was recorded as a "Revaluation Reserve for Land" in net assets.

Revaluation date: March 31, 1999

Revaluation method prescribed by Paragraph 3 of Article 3 of the Act:

The revaluation is calculated by reasonably adjusting the value of land based on the posted prices for benchmark properties as prescribed by Item 1 of Article 2 of the "Order for Enforcement of the Act on Revaluation of Land" (Cabinet Order No.119, promulgated on March 31, 1998) and the land assessments under Item 4 of Article 2 of the same Order.

## 8. Accumulated Depreciation of Tangible Fixed Assets

Accumulated depreciation of tangible fixed assets as of September 30, 2022, consists of the following:

## Financial Instruments

### Fair Values of Financial Instruments and Breakdown by Input Level

The carrying amounts on the interim consolidated balance sheets and fair values of financial instruments as of September 30, 2022, as well as the differences between these values and fair values by input level are presented below.

The amounts shown in the following table do not include investments in partnerships for which transitional measures are applied in accordance with Paragraph 24-16 of "Implementation Guidance on Accounting Standard for Fair Value Measurement" (ASBJ Guidance No.31, June 17, 2021, "Guidance for Application of Fair Value Measurement"), and equity securities with no market prices, etc. (See Note 3).

The fair values of financial instruments are classified into the following three levels depending on the observability and significance of the input used in the fair value measurement.

Level 1: Fair value determined based on the (unadjusted) quoted price in an active market for the same asset or liability

Level 2: Fair value determined based on directly or indirectly observable inputs other than Level 1 inputs

Level 3: Fair value determined based on significant unobservable inputs

If multiple inputs with a significant impact are used for the fair value measurement of a financial instrument, the financial instrument is classified to the lowest priority level of fair value measurement which each input belongs to.

(\*1) Derivative transactions recorded in "Trading Assets" and "Trading Liabilities" or in "Other Assets" and "Other Liabilities" are presented collectively. Receivables and payables arising from derivative transactions are presented on a net basis. Negative figures represent a liability balance after netting.

(\*2) As for derivative transactions applying hedge accounting, ¥(270,573) million (U.S. \$(1,868) million) is recorded on the interim consolidated balance sheets as of September 30, 2022.

(\*3) Derivative transactions qualifying for hedge accounting include interest rate swaps designated as hedging instruments to fix cash flows of hedged items such as loans and bills discounted, and deferred hedges have been adopted, in principle. In addition, "Practical Solution on the Treatment of Hedge Accounting for Financial Instruments that Reference LIBOR" (ASBJ PITF No.40, March 17, 2022) has been adopted to these hedge transactions.

(2) Financial assets and liabilities which are not stated at fair value on the interim consolidated balance sheets

Cash and Due from Banks, Call Loans and Bills Bought, Receivables under Resale Agreements and Receivables under Securities Borrowing Transactions, Foreign Exchanges, Call Money and Bills Sold, Payables under Repurchase Agreements, Short-Term Bonds Payables, and Borrowed Money from Trust Account are not included in the following tables because most of such transactions have short contractual terms (one year or less) and the carrying amounts approximate fair value.

(Note 1) Description of the valuation techniques and inputs used to measure fair value

### Monetary Claims Bought

Among monetary claims bought, securitized products are stated at reasonably calculated prices, which are equivalent to market prices, such as counterparties' quoted prices or dealer/broker-quoted prices, and are classified into Level 3 if those prices are comprised of significant unobservable inputs, and classified into Level 2 otherwise. Fair values for all other monetary claims bought are principally calculated in the same manner as Loans and Bills Discounted and mainly classified into Level 3.

### Trading Assets

Bonds and other securities held for trading purposes whose fair values are stated at dealer association prices or counterparties' quoted prices are classified into Level 1 or Level 2 depending on the level of market activity. Others

whose fair values are calculated by discounting future cash flows to their present values using observable inputs, are classified into Level 2.

### Money Held in Trust

Securities managed as trust assets in money held in trust, which are individually managed with the principal objective of securities portfolio management, are stated at quoted market prices or dealer/broker-quoted prices and classified into Level 1 or Level 2 depending on the level of the components. Investment trusts and funds for which no market transaction prices are available, including privately placed investment trusts, are stated at fair value based on factors, such as the net asset value, if there are no significant restrictions on the cancellation or repurchase request that would require compensation for the risk from market participants, and are primarily classified into Level 2.

Notes regarding money held in trust by holding purpose are presented under the "Money Held in Trust" section.

## Securities

Listed stocks are stated at quoted market prices and mainly classified into Level 1 depending on the level of market activity.

Bonds are stated at quoted market prices announced in exchange traded transactions, over-the-counter transactions, and others, and classified into Level 1 if they are traded in an active market. If the market is not active, even though bonds are stated at quoted market prices, they are classified into Level 2. Bonds stated at prices obtained from a third party, such as pricing services and dealers/brokers, are classified into Level 3 if those prices are comprised of significant unobservable inputs, and classified into Level 2 otherwise. Fair values of certain bonds are calculated by classifying them according to their internal ratings and maturities, and discounting the aggregate principal and interest by the interest rate which takes into account risk factors, including credit risks. If the interest rate is a significant unobservable input, the fair values of the bonds are classified into Level 3, otherwise Level 2.

Fair values of listed investment trusts and funds are stated at market prices quoted by exchanges and primarily classified into Level 1 based on the level of market activity. Investment trusts and funds for which no market transaction prices are available, including privately placed investment trusts, are stated at fair value based on factors, such as the net asset value, if there are no significant restrictions on the cancellation or repurchase request that would require compensation for the risk from market participants, and are primarily classified into Level 2.

## Loans and Bills Discounted

Fair values of loans and bills discounted are calculated by grouping loans according to loan terms, internal ratings, and maturities; and discounting the aggregate principal and interest by the interest rate which takes into account risk factors, including credit risks. However, floating-rate loans for which their carrying amounts are deemed to approximate fair value, due to the nature of the loan or the borrower's credit situation subsequent to the execution of the loans, are stated at their carrying amounts. For claims executed to borrowers who went into legal bankruptcy, virtual bankruptcy, and possible bankruptcy, estimated loan losses are

calculated based on the present value of estimated future cash flows or the expected recoverable amounts from collateral or guarantees. Therefore, fair values for these claims are stated at the amounts by deducting the allowance for loan losses from the amounts in the interim consolidated balance sheets at the interim consolidated balance sheet date because such deducted amounts approximate fair value. Loans without stated maturities (as the amount of credit is limited to the value of the collateral or due to some other special characteristics) are stated at their carrying amounts as the carrying amounts are deemed to approximate the fair value because of the expected repayment periods and the interest terms. These fair values are classified into Level 3.

## Lease Receivables and Investment Assets

Fair values of lease receivables and investment assets are calculated by grouping these assets according to the types of receivables, internal ratings, maturities, and others, and discounting the aggregate principal and interest by the interest rate which takes into account risk factors, including credit risks. These fair values are classified into Level 3.

## Deposits and Negotiable Certificates of Deposit

Demand deposits are stated at the amount that would have to be paid on demand at the interim consolidated balance sheet date (carrying amount). Time deposits with a fixed rate are grouped by product type and stated at the present value of their future cash flows discounted by the rates that would be newly used on the same type of deposits. Floating-rate time deposits and fixed-rate time deposits with short maturities (one year or less) are stated at their carrying amounts because the carrying amounts approximate the fair value. These fair values are classified into Level 2.

## Borrowed Money

Borrowed money at floating rates is stated at their carrying amounts. The carrying amounts are deemed to approximate fair value because such amounts reflect short-term market interest rates, and there have been no significant changes in credit condition subsequent to undertaking the borrowed money. Fair values of borrowed money at fixed rates are calculated by discounting their future cash flows by the interest rate adjusted for the residual term and credit

risk. Fair values for obligations with short maturities (one year or less) are stated at their carrying amounts because they approximate fair value. These fair values are classified into Level 2.

### Bonds Payable

Bonds issued by SuMi TRUST Holdings and its consolidated subsidiaries are stated at market prices, if such prices are available. Fair values for other bonds are calculated by discounting future cash flows to their present values by the interest rate adjusted for the residual term and credit risk. These fair values are classified into Level 2.

### Derivative transactions

The fair values of listed derivatives, including interest rates, bonds, currencies, and stocks, are classified into Level 1 as these amounts are measured using the liquidation price quoted by exchanges, given that the liquidation price represents the latest transaction price, and the unadjusted quoted price in an active market can be used.

The fair values of over-the-counter derivative transactions, including embedded derivatives separated from the host contract and accounted for as a derivative, in other words, derivatives other than listed derivatives, are, in principle, measured by a valuation method, including the following: the present value of the estimated future cash flows and the option valuation model, which use inputs such as observable interest rate and exchange rate. The fair values of these transactions take into account credit risks of the counterparties and SuMi TRUST Holdings. The valuation models applied in certain transactions utilize unobservable inputs in markets, such as correlations in the past. Over-the-counter derivative transactions are classified into Level 2 if observable inputs are available or the impact of unobservable inputs to the fair values is not significant. If the impact of unobservable inputs to the fair values is significant, they are classified into Level 3.

(Note 2) Quantitative information about financial assets and liabilities measured and stated on the interim consolidated balance sheets at fair value and classified into Level 3

(1) Quantitative information on significant unobservable inputs

Quantitative information on significant unobservable inputs for the interim period ended September 30, 2022, consists of the following:

	Valuation technique	Significant unobservable inputs	Range
Securities			
Corporate Bonds	Discounted present value method	Discount rate	1.2%
Derivative Transactions			
Interest Rate Related Transactions	Option valuation model	Correlation between interest rate and foreign exchange rate	(42.5)% - (7.6)%
		Correlation between interest rates	12.8%

(\*1) The amounts shown in the table above are included in "Trading Income" and "Trading Expenses" in the interim consolidated statements of income.

(\*2) The amounts shown in the table above are included in "Valuation Differences on Available-for-Sale Securities" under "Other Comprehensive Income (losses)" in the interim consolidated statements of comprehensive income.

(\*3) The amounts of transfer from or to Level 3 fair value are relevant to the changes in the observability of the inputs. The transfer was made at the end of the current interim period.

(\*4) Derivative transactions recorded in "Trading Assets" and "Trading Liabilities" or in "Other Assets" and "Other Liabilities" are presented collectively. Receivables and payables arising from derivative transactions are presented on a net basis. Negative figures represent a liability balance after netting.

## (3) Description of the fair value valuation process

At the SuMi TRUST Group, the middle division creates policies and procedures for the calculation of fair values and procedures for the use of fair value valuation models, and based on them, the front and middle divisions collaboratively establish the fair value valuation model. In addition, the middle and other divisions verify the reasonableness of the valuation methods and the inputs used, and the appropriateness of the classification of the fair value level.

For the calculation of the fair value, the valuation model, which represents the nature, characteristics, and risks of each asset in the most appropriate manner, is utilized. Moreover, if quoted prices obtained from third parties are used, those prices are verified using an appropriate method, such as the review of the valuation method and the inputs used and comparison with the fair values of similar financial instruments.

## (4) Description of the sensitivity of the fair value to changes in significant unobservable inputs

**Discount Rate**

Discount rate is determined for each financial asset and calculated based on the risk-free rate that incorporates other risk factors, such as credit risk. A significant increase (decrease) in the discount rate would generally result in a significant decrease (increase) in the fair value.

**Correlation**

Correlation is an indicator of the relation of changes between variables, such as interest rate and exchange rate. Correlation is used in the valuation technique of complex derivatives, and estimated based on historical results. A significant change in correlation would generally result in a significant increase or decrease in a fair value according to the nature and contractual terms and conditions of the financial instrument.

(Note 3) Interim consolidated balance sheet amounts of equity securities with no market prices, etc. and investments in partnership, etc. are as follows. These amounts are not included in "Securities" stated on the tables disclosed in "Fair Values of Financial Instruments and Breakdown by Input Level."

	Millions of Yen	Millions of U.S. Dollars
	Sep. 30, 2022	Sep. 30, 2022
Equity Securities with No Market Prices, etc. (*1)(*2)	¥ 94,491	\$ 653
Investments in Partnership, etc. (*3)	237,102	1,637

(\*1) Unlisted stocks are included in "Equity securities with no market prices, etc." and their fair values are not disclosed in accordance with Paragraph 5 of "Implementation Guidance on Disclosures about Fair Value of Financial Instruments" (ASBJ Guidance No.19, March 31, 2020).

(\*2) Impairment losses of ¥442 million (U.S. \$3 million) are recognized against Unlisted Stocks and others for the six-month period ended September 30, 2022.

(\*3) "Investments in partnership, etc." mainly include silent partnerships and investment partnerships. These fair values are not disclosed in accordance with Paragraph 24, Article 16 of Guidance for Application of Fair Value Measurement.

## Securities

- \*1. In addition to the "Securities" presented in the interim consolidated balance sheets, the following information includes loan-backed trust deeds reported under "Monetary Claims Bought."
- \*2. "Stocks in Subsidiaries and Affiliated Companies" are presented as a note to the interim financial statements.

### 3. Impairment of Securities

Securities other than equity securities with no market prices and investments in partnerships, or those deemed to be trading securities, are treated as impaired when their fair values have declined significantly from the acquisition cost and it is deemed unlikely to recover to the acquisition cost. Such securities are recorded at their fair values in the interim consolidated balance sheets. The difference between the acquisition cost and the fair values is recognized as an impairment loss.

Impairment losses of ¥1,056 million (U.S. \$7 million) on stocks and ¥941 million (U.S. \$7 million) on others were recognized during the current interim period.

The criteria for determining whether the fair values of securities have significantly declined are as follows:

- For securities whose issuers are classified as “normal” under the asset self-assessment, a decline of 50% or more in the fair values compared with the acquisition cost is deemed to be significant;
- For securities whose issuers are classified as “close-observation borrowers,” a decline of 30% or more in the fair values compared with the acquisition cost is deemed to be significant; and
- The fair values of some securities are deemed unrecoverable and impairment losses are recognized when their fair values have declined more than 30% but less than 50% from the acquisition cost and the fair values have continued to decline over a certain period.

### Money Held in Trust

#### 1. Held-to-Maturity Money Held in Trust

There is no held-to-maturity money held in trust as of September 30, 2022.

## Segment Information

### 1. Reportable Segment Information

The SuMi TRUST Group's reportable segments are defined as operating segments for which discrete financial information is available. The Board of Directors and the Executive Committee periodically receive reporting on the operating results and other relevant information from each of the reportable segments to make decisions about the allocation of management resources and to assess performance.

The main activities of the reportable segment are presented below:

Retail Business:

Provision of services to individual customers

Wholesale Business:

Provision of services to corporate customers

Investor Services Business:

Provision of services to investors

Real Estate Business:

Provision of services related to the real estate business

Global Markets Business:

Marketing operations, market-making operations, investment operations, and financial management operations

Asset Management Business:

Asset management service operations

### Change in Reportable Segments

The SuMi TRUST Group aims to promote and lead a virtuous circle of funds, assets, and capital by various stakeholders through provision of high value-added products and services and investments to create new values. Effective as of April 1, 2022, reorganization of SuMi TRUST Bank, Limited has been implemented.

Reportable segments of the SuMi TRUST Group were previously divided into "Retail Total Solution Services Business," "Wholesale Financial Services Business (Wholesale Total Solution Services Business and Wholesale Asset Management Business)," "Stock Transfer Agency Services Business," "Real Estate Business," "Fiduciary Services Business," "Asset Management Business," and "Global Markets Business." Starting from the six months ended September 30, 2022, the SuMi TRUST Group has reclassified them into the following segments: "Retail Business (former Retail Total Solution Services Business)," "Wholesale Business (former Wholesale Total Solution Services Business and former Stock Transfer Agency Services Business)," "Investor Services Business (former Wholesale Asset Management Business and former Fiduciary Services Business)," "Real Estate Business," "Global Markets Business," and "Asset Management Business."

## 2. Method for Calculating Substantial Gross Business Profit and Net Business Profit by Reportable Segment

Segment information is prepared based on internal management reports and the accounting policies used for the reportable segments are generally the same as

those presented under "Significant Accounting Policies and Practices"; however, the reportable segments are accounted for in accordance with the rules for internal management.

"Net Business Profit" represents "Substantial Gross Business Profit," less "Substantial G&A Expenses." "Substantial Gross Business Profit" and "Substantial G&A Expenses" are financial figures generated on the basis of internal management reporting, and they represent "Substantial Gross Business Profit" and "Substantial G&A Expenses (excluding any non-recurring expenses)" of SuMi TRUST Holdings and its consolidated subsidiaries, reflecting gains or losses of equity-method affiliated companies (proportionate share of gains or losses, excluding any non-recurring items).

Additionally, income earned from inter-segment and cross-segment transactions is calculated by applying the criteria (market prices) specified in the rules for internal management.

"Fixed Assets" disclosed in the assets by reportable segments are the total amount of tangible fixed assets and intangible fixed assets. These assets are owned by SuMi TRUST Bank and allocated to each segment.

## 3. Profit or Loss and Fixed Assets by Reportable Segment

The details and amounts of profit or loss and fixed assets by reportable segment for the six months ended September 30, 2022, are as follows:

(Notes)

- 1) The figures represent "Substantial Gross Business Profit" in substitution for net sales to be presented by companies in other industries.
- 2) The amounts of "Substantial Gross Business Profit" include net trust fees, net interest income, net fees and commissions, net trading income, and net other ordinary income and expenses.
- 3) "General and Administrative Expenses" include personnel expenses and non-personnel expenses.
- 4) "Others" include costs of capital funding, dividends for shares for cross-shareholdings, general and administrative

expenses of headquarters, and elimination of internal transactions.

- 5) The amount of "Fixed Assets" for each segment represents the amount of fixed assets owned by SuMi TRUST Bank. "Others" for "Fixed Assets" include shared assets not allocated to any segment, fixed assets owned by consolidated subsidiaries outside the scope of allocation of resources, and adjustments for consolidation. For fixed assets not allocated to each segment, some of related expenses are allocated to each segment based on a reasonable allocation method.

#### 4. Reconciliation Between Total Profit or Loss for Reportable Segments and Amounts in the Interim Consolidated Statements of Income

## Notes to the Interim Statements of Trust Account (Unaudited)

## 1. Trust Accounts

Under the Trust Act of Japan, trust activities must be administered separately from a commercial banking business. As a result, assets accepted in trust must be segregated from the assets held by SuMi TRUST Holdings. Within the general category of trust accounts, each trust account is segregated from other trust assets. Accordingly, the interim financial statements of SuMi TRUST Holdings do not reflect SuMi TRUST Holdings' records as to the assets accepted in trust, which are maintained separately under the trust account.

Under certain trust agreements, repayments of the principal of the customers' trust assets are guaranteed by SuMi TRUST Bank, and such guaranteed principal as of September 30, 2022, is ¥ 4,107,204 million (U.S. \$28,363 million).

The translation of Japanese yen amounts into U.S. dollar amounts is included solely for the convenience of readers

outside Japan. The translation has been made at the rate of ¥144.81 to U.S. \$1, the approximate rate of exchange as of September 30, 2022. Such translations should not be construed as representations that the Japanese yen amounts could be converted into U.S. dollars at that or any other rate.

Amounts less than one million Japanese yen have been rounded down and amounts less than one million U.S. dollars have been rounded off. As a result, the total may not be equal to the sum of individual amounts.

Each amount presented in the interim statements of trust account as of March 31 and September 30, 2022, is equal to the trust account in SuMi TRUST Bank. Entrusted amounts between these consolidated subsidiaries for asset management are excluded from the amounts presented in the statements of trust account.

## 2. Loans and Bills Discounted

Under certain trust agreements, repayments of the principal of customers' trust assets are guaranteed by SuMi TRUST Bank, and loans on such guaranteed trust assets as of September 30, 2022, include the following:

	Millions of Yen	Millions of U.S. Dollars
	Sep. 30, 2022	Sep. 30, 2022
Doubtful Loans	¥ 705	\$ 5
Restructured Loans	12	0
<b>Total</b>	<b>¥ 717</b>	<b>\$ 5</b>

## 3. Balance of Money Trusts

The principal amount of certain money trusts is guaranteed and the balance of these accounts is as follows:

	Millions of Yen	Millions of U.S. Dollars
	Sep. 30, 2022	Sep. 30, 2022
<b>Assets:</b>		
Loans and Bills Discounted	¥ 12,111	\$ 84
Other	4,095,380	28,281
<b>Total</b>	<b>¥ 4,107,491</b>	<b>\$ 28,365</b>
<b>Liabilities:</b>		
Principal	¥ 4,107,204	\$ 28,363
Allowance for Impairment of Guaranteed Trust Principal	12	0
Other	275	2
<b>Total</b>	<b>¥ 4,107,491</b>	<b>\$ 28,365</b>

In the case of certain money trusts, the principal amount is guaranteed, and as the above table indicates, an allowance for the impairment of guaranteed trust principal is set aside by SuMi TRUST Bank. The figures in the table include funds entrusted from other trusts managed by SuMi TRUST Bank.

## Financial Data:

## Notes to the Interim Consolidated Financial Statements (Unaudited)

**Basis of Presentation of Financial Statements**

The accompanying interim consolidated financial statements (banking account) have been prepared from the accounts maintained by Sumitomo Mitsui Trust Bank, Limited ("SuMi TRUST Bank") and its consolidated subsidiaries (together, the "SuMi TRUST Bank Group") in accordance with accounting principles generally accepted in Japan and certain accounting and disclosure rules under the Financial Instruments and Exchange Act of Japan and the Banking Act of Japan, which are different in certain respects as to the application and disclosure requirements of International Financial Reporting Standards.

In preparing these interim consolidated financial statements, the interim consolidated financial statements of SuMi TRUST Bank issued in Japan have been reclassified and rearranged in order to present them in a form that is more familiar to readers outside Japan.

The interim consolidated financial statements are stated in Japanese yen, the currency of the country in which SuMi TRUST Bank is incorporated and operates. The translation of Japanese yen amounts into U.S. dollar amounts is included solely for the convenience of readers outside Japan. The translation has been made at the rate of ¥144.81 to U.S. \$1, the approximate rate of exchange as of September 30, 2022. Such translations should not be construed as representations that the Japanese yen amounts could be converted into U.S. dollars at that or any other rate.

Amounts less than one million Japanese yen have been rounded down and amounts less than one million U.S. dollars have been rounded off. As a result, total balances may not be equal to the sum of individual amounts.

**Significant Accounting Policies and Practices****1. Scope of Consolidation**

(1) Consolidated Subsidiaries as of September 30, 2022:

37 companies

Principal Companies:

Sumitomo Mitsui Trust Loan & Finance Co., Ltd.

Sumitomo Mitsui Trust Panasonic Finance Co., Ltd.

Sumitomo Mitsui Trust Realty Co., Ltd.

Sumitomo Mitsui Trust Guarantee Co., Ltd.

Sumitomo Mitsui Trust Club Co., Ltd.

Sumitomo Mitsui Trust and Bank (U.S.A.) Limited

A change in the consolidated subsidiaries during the interim period ended September 30, 2022, is as follows:

STB Finance Cayman Limited is excluded from the scope of consolidation effective from the interim period ended September 30, 2022, due to liquidation.

**(2) Unconsolidated Subsidiaries**

Principal Companies:

Cattleya Co., Ltd.

Apollo Aligned Alternatives (C-2), L.P.

Cattleya Co., Ltd. and 10 other companies are excluded from the scope of consolidation in accordance with Article 5, Paragraph 1, Item 2 of "Ordinance on Terminology, Forms and Preparation Methods of Interim Financial Statements, etc.," because they are operators engaged in leasing activities through silent partnership arrangements and their assets and profits/losses do not belong to the subsidiaries.

Apollo Aligned Alternatives (C-2), L.P. and other unconsolidated subsidiaries are excluded from the scope of consolidation, because they are immaterial to the extent that excluding such companies from consolidation would not prevent a reasonable assessment of the corporate group's financial position and financial results. Such materiality is determined based on the size of their assets, ordinary income, net income (amount corresponding to SuMi TRUST Bank's interest in subsidiaries), retained earnings (amount corresponding to SuMi TRUST Bank's interest in subsidiaries), accumulated other comprehensive income (amount corresponding to SuMi TRUST Bank's interest in subsidiaries), and other financial data.

**2. Application of the Equity Method**

(1) Unconsolidated Subsidiaries Accounted for by the Equity Method:

None

(2) Affiliated Companies Accounted for by the Equity Method:

18 companies

Principal Company:

SBI Sumishin Net Bank, Ltd.

Changes in the affiliated companies accounted for by the equity method during the interim period ended September 30, 2022, are as follows:

Yuryo Loan Co., Ltd. and three other companies are excluded from the scope of the application of the equity

method effective from the interim period ended September 30, 2022, due to their reduced significance on the consolidated financial statements.

### (3) Unconsolidated Subsidiaries and Affiliated Companies That Are Not Accounted for by the Equity Method

Principal Companies:

Cattleya Co., Ltd.

Apollo Aligned Alternatives (C-2), L.P.

Cattleya Co., Ltd. and 10 other companies are excluded from the scope of the application of the equity method in accordance with Article 7, Paragraph 1, Item 2 of "Ordinance on Terminology, Forms and Preparation Methods of Interim Financial Statements, etc.," because they are operators engaged in leasing activities through silent partnership arrangements, and their assets and profits/losses do not belong to the subsidiaries.

Apollo Aligned Alternatives (C-2), L.P. and other unconsolidated subsidiaries and affiliated companies that are not accounted for by the equity method are excluded from the scope of application of the equity method because such exclusion would not materially affect the interim consolidated financial statements. Such materiality is determined based on the size of their net income (amount corresponding to SuMi TRUST Bank's interest in subsidiaries and affiliated companies), retained earnings (amount corresponding to SuMi TRUST Bank's interest in subsidiaries and affiliated companies), accumulated other comprehensive income (amount corresponding to SuMi TRUST Bank's interest in subsidiaries and affiliated companies), and other financial data.

### 3. Interim Balance Sheet Dates of the Consolidated Subsidiaries

(1) The interim balance sheet dates of consolidated subsidiaries are as follows:

October 31:	2 companies
February 28:	1 company
March 31:	4 companies
May 31:	1 company
June 30:	4 companies
September 30:	25 companies

(2) Subsidiaries are consolidated using the interim financial statements as of the following dates:

- Subsidiaries with an interim balance sheet date of October 31: Provisionally prepared interim financial statements as of July 31
- A subsidiary with an interim balance sheet date of February 28: Provisionally prepared interim financial statements as of August 31
- Subsidiaries with an interim balance sheet date of March 31: Provisionally prepared interim financial statements as of September 30
- A subsidiary with an interim balance sheet date of May 31: Provisionally prepared interim financial statements as of August 31
- Other subsidiaries: Interim financial statements as of their respective interim balance sheet dates.

Material transactions arising between the interim consolidated balance sheet date, September 30, 2022, and the above interim balance sheet dates of consolidated subsidiaries have been reflected in the interim consolidated financial statements.

### 4. Significant Accounting Policies

#### (1) Trading Assets/Liabilities and Income/Expenses

Trading account activities are conducted to seek profits by taking advantage of short-term fluctuations in interest rates, currency rates, financial markets or other indicators, or inter-market differences (for trading purposes). The fluctuations in such items are presented as "Trading Assets" or "Trading Liabilities" in the interim consolidated balance sheets on a trade-date basis, and gains and losses from such transactions are presented as "Trading Income" or "Trading Expenses" in the interim consolidated statements of income.

For the measurement of trading assets and trading liabilities, securities and monetary claims are stated at their fair values as of the interim consolidated balance sheet date, and trading-related financial derivatives, such as swaps, futures, and options, are stated at the amounts that would be settled if they were terminated on the interim consolidated balance sheet date.

Trading income and trading expenses include interest income or expenses, adjusting valuation differences of securities and monetary claims during the interim period and differences in resulting gains or losses from the settlement of financial derivatives assuming that the settlement was made as of September 30, 2022.

Regarding valuation of specific market risks and credit risks for derivative transactions, fair value is measured in groups of financial assets and financial liabilities with the basis of the net asset or liability after offsetting financial assets and financial liabilities.

## (2) Securities

(a) Under the accounting standards for financial instruments in Japan, SuMi TRUST Bank is required to determine the purposes for holding each security and classify such security into (i) securities held for trading purposes ("Trading Securities"), (ii) debt securities intended to be held to maturity ("Held-to-Maturity Debt Securities"), (iii) equity securities issued by subsidiaries and affiliated companies, or (iv) all other securities that are not classified in any of the above categories ("Available-for-Sale Securities"). "Held-to-Maturity Debt Securities" are carried at amortized cost using the moving-average method (the straight-line method). Equity securities issued by unconsolidated subsidiaries and affiliated companies not accounted for by the equity method are stated at moving-average cost. "Available-for-Sale Securities" are valued at the market price (cost of securities sold is calculated using primarily the moving-average method). Equity securities with no market prices are carried at cost using the moving-average method.

Valuation differences on "Available-for-Sale Securities" are recorded as a separate component of net assets and reported in the interim consolidated balance sheets.

(b) Securities in money held in trust are classified and accounted for in the same manner as those described in 4. (1) and 4. (2) (a) above.

## (3) Financial Derivatives

Financial derivatives, excluding those for trading purposes, are stated at fair value.

Regarding valuation of specific market risks and credit risks, fair value is measured in groups of financial assets and financial liabilities with the basis of the net asset or liability after offsetting financial assets and financial liabilities.

## (4) Depreciation and Amortization Methods

### (a) Tangible fixed assets other than lease assets

Tangible fixed assets are depreciated using primarily the straight-line method.

Useful lives of major asset categories:

Buildings: 3 to 60 years

Others: 2 to 20 years

### (b) Intangible fixed assets

Intangible fixed assets are amortized using the straight-line method. Software for internal use is amortized over the useful life specified by SuMi TRUST Bank or the consolidated subsidiaries, which is generally five years.

Goodwill is amortized over a reasonable number of years, determined for each case, up to a maximum of 20 years. However, if immaterial, goodwill is expensed in its entirety in the year in which it arises.

### (c) Lease assets

The lease assets under "Tangible Fixed Assets" that are related to finance leases that do not transfer ownership of the lease assets to lessees are depreciated and amortized using the straight-line method over the lease term, assuming a residual value of zero.

## (5) Allowance for Loan Losses

SuMi TRUST Bank records allowance for loan losses in accordance with internally established criteria for write-offs and allowance for loan losses.

For claims against borrowers that have initiated special liquidation proceedings or other bankruptcy proceedings ("legal bankruptcy") and against borrowers that are in a substantially similar adverse condition ("virtual bankruptcy"), the allowance is provided based on the amount of claims, after the write-off stated below, net of the expected amount of recoveries from collateral and guarantees. For claims against borrowers that have not yet initiated bankruptcy proceedings, but are very likely to become bankrupt in the future ("possible bankruptcy"), an allowance is provided for the amount deemed necessary based on the overall assessment of the borrowers' solvency, after deducting the amount expected to be collected through the disposal of collateral or execution of guarantees from the claims.

For claims against large borrowers with certain credit risks and credit amounts that are classified as possible bankruptcy borrowers, restructured loan borrowers, or close-observation borrowers, if future cash flows from the collection of the principal and interest can be reasonably estimated, the allowance is provided for the difference between the present value of expected future cash flows discounted at the contracted interest rate prior to the loan restructuring and the carrying amount of the claim (the "estimated cash flow method").

For claims that are classified as other than those above, the allowance is primarily provided based on the estimated loan losses over the next one or three years, which are calculated based on the average historical loan-loss ratios during a certain period on the basis of historical loan losses over the past one or three years, then adjusted based on future forecast.

All claims are assessed at branches and credit supervision departments based on the criteria for self-assessment of asset quality. The Risk Management Department, which is independent from operating sections, monitors the results of such assessments.

As for the other consolidated subsidiaries, the allowance for loan losses for general claims is provided based on the historical loan-loss ratios, and the allowance for loan losses for specific claims, such as possible uncollectible claims, is provided based on the estimate of unrecoverable amount for each claim.

For claims against borrowers who are legally bankrupt or virtually bankrupt with collateral or guarantees, the amounts of claims, net of amounts expected to be collected through the disposal of collateral or through the execution of guarantees, are deemed uncollectible, and such uncollectible amount is directly deducted from the amounts of claims. The deducted amount was ¥26,959 million (U.S. \$186 million) for the six months ended September 30, 2022.

#### (Additional Information)

There is no significant change to the assumption for the adjustments made to loan losses based on future forecast described in the "Significant Accounting Estimates" section of the Annual Report for the fiscal year ended March 31, 2022, during the six-month period ended September 30, 2022.

#### (6) Provision for Bonuses

A provision for bonuses is provided for the estimated employee bonuses attributable to the current interim period.

#### (7) Provision for Directors' Bonuses

A provision for directors' bonuses is provided for the estimated directors' bonuses attributable to the current interim period.

#### (8) Provision for Stocks Payment

A provision for stocks payment is provided for estimated stock-based payments to directors of SuMi TRUST Bank under a stock-based compensation scheme that have been earned by September 30, 2022.

#### (9) Provision for Reward Points Program

A provision for reward points program is provided for the use of points granted to holders of Diners Club Card and other credit cards in the amount deemed necessary based on the reasonable estimates of the points to be used in the future.

#### (10) Provision for Reimbursement of Deposits in Dormant Accounts

A provision for reimbursement of deposits in dormant accounts is provided for the deposits that were derecognized as liabilities under certain conditions. Such provision is provided against the estimated future reimbursement to be requested by customers based on the past reimbursement record.

#### (11) Provision for Contingent Losses

A provision for contingent losses is provided for losses associated with off-balance-sheet transactions or trust transactions in the amount deemed necessary based on the estimated possible future losses.

## (12) Accounting for Retirement Benefits

In determining the retirement benefit obligations, projected benefits to the periods up to the interim period ended September 30, 2022, are attributed based on the plan's benefit formula. Past service cost and actuarial gains or losses are expensed using the following methods:

### Past service cost:

In principle, the full amount of past service costs is charged to profit or loss in the fiscal year they occur.

### Actuarial gains or losses:

Actuarial differences are expensed using the straight-line method, primarily over 10 years, within the employees' average remaining service period, commencing from the next fiscal year of incurrence.

Some consolidated subsidiaries adopt the simplified method in calculating liabilities for retirement benefits and retirement benefit expenses for lump-sum retirement benefit plans, recording liabilities at amounts that would be required for voluntary termination at the end of the current interim period.

## (13) Basis for Recognition of Significant Revenues and Expenses

The SuMi TRUST Bank Group's main revenues from contracts with customers are "Net Trust Fees" and "Revenue from Service Transactions" such as asset administration fees, stock transfer agency fees, real estate brokerage fees, and investment trust and insurance sales fees.

The timing of satisfying performance obligation in each transaction is determined based on the respective economic conditions as follows. The amount of consideration for a transaction is generally received within approximately six months after the satisfaction of its performance obligation and does not include significant financing components.

Trust fees and asset administration fees are recorded mainly in the "Investor Services Business" and "Retail Business." The SuMi TRUST Bank Group is obligated to perform asset administration services in accordance with the terms of trust agreements and various contracts. The SuMi TRUST Bank Group recognizes revenues from these performance obligations over a period of time since the benefits are expensed by the customer as the daily services are provided.

Stock transfer agency fees are mainly recorded in the "Wholesale Business." The SuMi TRUST Bank Group is obligated to perform shareholder registry management services in accordance with agreement on entrustment of management of shareholder registry. The SuMi TRUST Bank Group recognizes revenues from this performance obligation over a period of time since the benefits are expensed by the customer as the daily services are provided.

Real estate brokerage fees are recorded mainly in the "Real Estate Business." The SuMi TRUST Bank Group is obligated to perform real estate brokerage services based on real estate brokerage contracts. Revenues are recognized when the performance obligation is satisfied at the time when the real estate sales contract is executed or when the property is delivered. The timing of satisfying performance obligation is determined based on the significance of the duties after the execution of the real estate sales contract.

Fees on sales of investment trusts and insurance are mainly recorded in the "Retail Business." The SuMi TRUST Bank Group is obligated to provide product explanations and sales administrative services based on the terms and conditions of transactions and consignment agreements. Revenues are recognized when the performance obligation is satisfied at the time of product sale.

## (14) Foreign Currency Translation

Assets and liabilities of SuMi TRUST Bank that are denominated in foreign currencies and overseas branch accounts are generally translated into yen at the exchange rates prevailing at the interim consolidated balance sheet date, except for shares of stocks in affiliated companies translated into yen at the exchange rates prevailing at the acquisition dates.

Assets and liabilities of consolidated subsidiaries that are denominated in foreign currencies are translated into yen at the exchange rates prevailing at their respective interim balance sheet dates.

## (15) Accounting for Leases

As for the consolidated subsidiaries in Japan, income and expenses arising from transactions of finance leases that do not transfer ownership to lessees are recognized as sales and costs of goods sold when lease payments are collected.

## (16) Hedge Accounting

## (a) Interest-related risk hedge

SuMi TRUST Bank manages interest rate risk arising from various assets and liabilities by using financial derivative transactions. Such transactions are generally treated as deferred hedges as specified in "Treatment for Accounting and Auditing of Application of Accounting Standard for Financial Instruments in Banking Industry" (Japanese Institute of Certified Public Accountants ("JICPA") Industry Committee Practical Guidance No.24 of March 17, 2022, "Guidance No.24"). To evaluate the effectiveness of hedges designed to offset market fluctuations, hedged items, such as deposits, loans and bills discounted, and hedging instruments, such as interest rate swaps, are grouped by duration to maturity. The effectiveness of hedges designed to fix cash flow is evaluated by verifying the correlation between the interest volatility factors for the hedged items and those for the hedging instruments.

## (b) Currency-related risk hedge

SuMi TRUST Bank manages the foreign exchange risk arising from various assets and liabilities denominated in foreign currencies using financial derivative transactions. Such transactions are generally treated as deferred hedges as specified in "Treatment for Accounting and Auditing of Application of Accounting Standard for Foreign Currency Transactions in Banking Industry" (JICPA Industry Committee Practical Guidance No.25 of October 8, 2020, "Guidance No.25"). The effectiveness of hedging instruments, such as cross-currency swaps and foreign exchange swaps, as a means of mitigating the foreign exchange risk arising from monetary claims and debts denominated in foreign currencies, is evaluated by verifying that the foreign currency positions of such hedging instruments are in amounts equivalent to the corresponding monetary claims and debts denominated in foreign currencies, which are the hedged items.

Additionally, transactions intended to hedge the foreign exchange risk associated with foreign currency-denominated securities (other than bonds) are treated as portfolio hedges. Fair value hedge accounting has been adopted to account for such transactions on the conditions that specific foreign currency-denominated securities are designated in advance as hedged items and that

foreign currency payables of spot and forward foreign exchange contracts exist in excess of the acquisition cost of such foreign currency-denominated securities on a foreign currency basis.

The foreign exchange risk associated with investment in the shares of stocks in foreign subsidiaries and affiliated companies is individually hedged using forward exchange contracts denominated in the same currency, and foreign currency translation adjustments arising from the hedging instruments are included in "Foreign Currency Translation Adjustments."

## (c) Internal hedge transactions and others

Among derivative transactions of SuMi TRUST Bank that take place between consolidated subsidiaries or that are made internally between designated trading accounts and some other accounts, those interest rate swaps and cross-currency swaps designated as hedging instruments are carried out in accordance with standards for cover deals with external parties, which eliminate discretion and enable strict management on hedges pursuant to Guidance No.24 and Guidance No.25. Accordingly, income or expenses arising from such interest rate swaps and cross-currency swaps are recognized as profits or losses, or deferred, rather than eliminated.

Deferred hedge accounting has been adopted for certain assets and liabilities by individual transactions.

Consolidated subsidiaries account for such transactions as deferred hedges or exceptional treatment for interest rate swaps.

## (17) Scope of Cash and Cash Equivalents in the Interim Consolidated Statements of Cash Flows

For SuMi TRUST Bank, the balance of "Cash and Cash Equivalents" in the interim consolidated statements of cash flows is equivalent to the balance of cash and due from the Bank of Japan under "Cash and Due from Banks" presented in the interim consolidated balance sheets. For the consolidated subsidiaries, the balance of "Cash and Cash Equivalents" in the interim consolidated statements of cash flows is equivalent to the balance of "Cash and Due from Banks" presented in the interim consolidated balance sheets.

**(18) Nondeductible Consumption Taxes Associated with Assets**

Nondeductible consumption taxes and local consumption taxes associated with assets are recorded as expenses in the current interim period.

**(19) Adoption of the Group Tax Sharing System**

SuMi TRUST Bank adopts the group tax sharing system.

**(20) Adoption of Accounting Treatment and Disclosure Under Group Tax Sharing System**

SuMi TRUST Bank and some of its consolidated subsidiaries in Japan have shifted from the consolidated taxation system to the group tax sharing system effective from the six months ended September 30, 2022. In accordance with this change, the treatment of accounting and disclosure of corporation taxes, local corporation taxes, and tax effect accounting under the group tax sharing system are in accordance with “Practical Solution on the Accounting and Disclosure Under the Group Tax Sharing System” (Accounting Standards Board of Japan (ASBJ) Practical Issues Task Force (PITF) No.42, August 12, 2021, “ASBJ PITF No.42”). In accordance with Paragraph 32 (1) of ASBJ PITF No.42, the change in accounting policy resulting from the adoption of ASBJ PITF No.24 is not expected to have any effect on the consolidated financial statements.

**Changes in Accounting Policies****Application of Implementation Guidance on Accounting Standard for Fair Value Measurement**

SuMi TRUST Bank has applied the “Implementation Guidance on Accounting Standard for Fair Value Measurement” (ASBJ Guidance No.31, June 17, 2021, “Guidance for Application of Fair Value Measurement”) from the beginning of the six-month period ended September 30, 2022. In accordance with the transitional measures stipulated in Paragraph 27-2 of the Guidance for Application of Fair Value Measurement, SuMi TRUST Bank has decided to apply the new accounting policy set forth by the Guidance for Application of Fair Value Measurement prospectively. Thus, certain investment trusts, which were previously stated at the acquisition cost on the consolidated balance sheet, are now measured at fair value based on factors, such as the net asset value.

As a result, Securities, Valuation Differences on Available for Sale Securities, Deferred Tax Liabilities increased by ¥8,305 million (U.S. \$57 million), ¥5,762 million (U.S. \$40 million), and ¥2,543 million (U.S. \$18 million), respectively. The effect of this change on per share information for the six-month period ended September 30, 2022, is immaterial.

## Notes to the Interim Consolidated Balance Sheets

### 1. Securities

"Securities" include stocks and equity investments in unconsolidated subsidiaries and affiliated companies.

	Millions of Yen	Millions of U.S. Dollars
	Sep. 30, 2022	Sep. 30, 2022
Stocks	¥ 144,797	\$ 1,000
Equity Investments	72,530	501

### 2. Securities with free disposal rights to sell or (re)pledge

Securities borrowed under unsecured loan agreements and securities purchased under resale agreements or borrowed with cash collateral that SuMi TRUST Bank has a right to freely sell or (re)pledge consist of the following:

	Millions of Yen	Millions of U.S. Dollars
	Sep. 30, 2022	Sep. 30, 2022
Securities that are Further Loaned	¥ 714,065	\$ 4,931

### 3. Loans and Bills Discounted

Loans in accordance with the Banking Act and the Act on Emergency Measures for Revitalization of the Financial Functions are presented below. Loans include corporate bonds in "securities" (limited to those issued in private placement of securities prescribed in Section 3 of Paragraph 2 in the Financial Instruments and Exchange Act, and those with wholly or partially guaranteed redemption

of the principal and payment of the interest), loans and bills discounted, foreign exchanges, interest receivables, suspense payments, and customers' liabilities for acceptances and guarantees in "other assets" presented in the interim consolidated balance sheet, and securities loaned (limited to those under a loan for use or lease contract) provided in the notes, etc.

	Millions of Yen	Millions of U.S. Dollars
	Sep. 30, 2022	Sep. 30, 2022
Bankrupt and Practically Bankrupt Loans	¥ 22,405	\$ 155

<b>Total</b>	<b>¥ 167,484</b>	<b>\$ 1,157</b>

Bankrupt and practically bankrupt loans are those loans that have fallen into bankruptcy due to certain reasons, including initiation of bankruptcy proceedings, start of reorganization proceedings, or submission of an application to start rehabilitation proceedings and quasi-loans.

Doubtful loans are those loans with a strong likelihood that loan principals cannot be recovered and interest cannot be received according to the contract because of difficulties in the financial conditions and business performance of debtors who are not yet legally bankrupt, excluding those

loans classified as bankrupt and practically bankrupt loans.

Loans past due three months or more are those loans for which principal or interest payments are more than three months past due (calculated from the day following the contractual payment date), excluding loans classified as bankrupt and practically bankrupt loans and doubtful loans.

Restructured loans are those loans whose terms have been modified by reducing or waiving interest, granting interest payment extensions, granting principal repayment

extensions, forgiving debt, or otherwise providing some arrangements favorable to the borrower in connection with the borrower's business restructuring or to otherwise provide support, excluding those loans classified as

bankrupt and practically bankrupt loans, doubtful loans or loans past due three months or more.

The above loans are presented at the amounts prior to deduction of allowances for loan losses.

#### 4. Bills Discounted

Bills discounted are treated as financial transactions in accordance with Guidance No.24. SuMi TRUST Bank has a free disposal right to sell or (re)pledge such commercial bills. The total face value of such bills is as follows:

	Millions of Yen	Millions of U.S. Dollars
	Sep. 30, 2022	Sep. 30, 2022
Bills Discounted	¥ 442	\$ 3

#### 5. Assets Pledged as Collateral

Assets pledged as collateral as of September 30, 2022, consist of the following:

	Millions of Yen	Millions of U.S. Dollars
	Sep. 30, 2022	Sep. 30, 2022
Assets Pledged as Collateral:		
Securities	¥ 2,285,475	\$ 15,783
Loans and Bills Discounted	4,785,628	33,048
Lease Receivables and Investment Assets	52,142	360
Other Assets	81,759	565
<b>Total</b>	<b>¥ 7,205,006</b>	<b>\$ 49,755</b>
Corresponding Liabilities to Assets Pledged as Collateral:		
Deposits	¥ 19,635	\$ 136
Payables under Repurchase Agreements	590,814	4,080
Borrowed Money	4,479,918	30,937

In addition to the foregoing, the following assets have been pledged as collateral for settlement of exchange and others, or as a substitution of margin of futures and others.

	Millions of Yen	Millions of U.S. Dollars
	Sep. 30, 2022	Sep. 30, 2022
Securities	¥ 581,457	\$ 4,015

"Other Assets" include initial margins of futures, security deposits, and cash collateral pledged for financial instruments. Such amounts are as follows:

	Millions of Yen	Millions of U.S. Dollars
	Sep. 30, 2022	Sep. 30, 2022
Initial Margins of Futures Markets	¥ 59,142	\$ 408
Security Deposits	24,595	170
Cash Collateral Pledged for Financial Instruments-Assets	1,275,560	8,809

## 6. Overdraft Facility Agreements and Commitment Lines of Credit

Overdraft facility agreements and committed lines of credit are agreements to extend a certain amount of credit at the customer's request as long as the terms of the agreement have not been violated. The amount of unused credit under such agreements is as follows:

	Millions of Yen	Millions of U.S. Dollars
	Sep. 30, 2022	Sep. 30, 2022
Amount of Unused Credit under Agreements	¥ 12,943,748	\$ 89,384
Attributable to Agreements Expiring within One Year or which May Be Unconditionally Canceled at Any Time	8,469,479	58,487

The balance of unused credit will not necessarily affect the future cash flows of SuMi TRUST Bank and its consolidated subsidiaries because most of these agreements expire without credit being extended. Most of these agreements contain clauses allowing SuMi TRUST Bank and its consolidated subsidiaries to reject requests for credit outright or reduce the credit limits due to changes in financial circumstances, the

need to preserve claims, or other reasonable causes. Besides requesting collateral, such as real estate or securities, as necessary at the time of entering into the agreement, the SuMi TRUST Bank Group has also adopted other measures to keep its credit sound, such as periodically assessing the condition of customers' businesses following internal procedures and revising agreements, as necessary.

## 7. Revaluation Reserve for Land

In accordance with the Act on Revaluation of Land (Act No.34, promulgated on March 31, 1998), land for commercial use of SuMi TRUST Bank was revalued, and the amount equivalent to the taxes on the resulting valuation difference was recorded as a "Deferred Tax Liability for Land Revaluation" in liabilities, and the amount net of such differences was recorded as a "Revaluation Reserve for Land" in net assets.

Revaluation date: March 31, 1998, and March 31, 1999

Revaluation method prescribed by Paragraph 3 of Article 3 of the Act:

The revaluation is calculated by reasonably adjusting the value of land based on the following prices: the posted prices for benchmark properties as prescribed by Item 1 of Article 2 of the "Order for Enforcement of the Act on Revaluation of Land" (Cabinet Order No.119, promulgated on March 31, 1998); the standard prices for benchmark properties as prescribed by Item 2 of Article 2, the registered prices in tax lists for such land for commercial use as prescribed by Item 3 of Article 2; and the land assessments under Item 4 of Article 2 of the same Order.

## 8. Accumulated Depreciation of Tangible Fixed Assets

Accumulated depreciation of tangible fixed assets as of September 30, 2022, consists of the following:

	Millions of Yen	Millions of U.S. Dollars
	Sep. 30, 2022	Sep. 30, 2022
Accumulated Depreciation of Tangible Fixed Assets	¥ 184,304	\$ 1,273

## 9. Borrowed Money

Borrowed money includes subordinated borrowings with lower priority for fulfillment of obligation than other debts.

	Millions of Yen	Millions of U.S. Dollars
	Sep. 30, 2022	Sep. 30, 2022
Subordinated Borrowings	¥ 625,000	\$ 4,316
Subordinated Borrowings with a Debt Relief Clause at the Contractual Point of Non-Viability	625,000	4,316

## 10. Bonds Payable

Bonds payable includes subordinated bonds.

	Millions of Yen	Millions of U.S. Dollars
	Sep. 30, 2022	Sep. 30, 2022
Subordinated Bonds	¥ 72,996	\$ 504

## 11. Guarantee Obligations on Corporate Bonds Placed through Private Securities Offerings

The bonds presented under "Securities" include guarantee obligations on corporate bonds that were placed through private securities offerings (Article 2, Paragraph 3 of the Financial Instruments and Exchange Act).

	Millions of Yen	Millions of U.S. Dollars
	Sep. 30, 2022	Sep. 30, 2022
Guarantee Obligations on Corporate Bonds Placed through Private Securities Offerings	¥ 63,799	\$ 441

## 12. Principal of Guaranteed Trust Accounts

The principal amount of the trusts held by SuMi TRUST Bank through guaranteed trust agreements is as follows:

	Millions of Yen	Millions of U.S. Dollars
	Sep. 30, 2022	Sep. 30, 2022
Money Trusts	¥ 4,107,204	\$ 28,363

## Notes to the Interim Consolidated Statements of Income

## Financial Instruments

### Fair Values of Financial Instruments and Breakdown by Input Level

The carrying amounts on the interim consolidated balance sheets and fair values of financial instruments as of September 30, 2022, as well as the differences between these values and fair values by input level are presented below.

The amounts shown in the following table do not include investments in partnerships for which transitional measures are applied in accordance with Paragraph 24-16 of "Implementation Guidance on Accounting Standard for Fair Value Measurement" (ASBJ Guidance No.31, June 17, 2021, "Guidance for Application of Fair Value Measurement"), and equity securities with no market prices, etc. (See Note 3).

The fair values of financial instruments are classified into the following three levels depending on the observability and significance of the input used in the fair value measurement.

Level 1: Fair value determined based on the (unadjusted) quoted price in an active market for the same asset or liability

Level 2: Fair value determined based on directly or indirectly observable inputs other than Level 1 inputs

Level 3: Fair value determined based on significant unobservable inputs

If multiple inputs with a significant impact are used for the fair value measurement of a financial instrument, the financial instrument is classified to the lowest priority level of fair value measurement which each input belongs to.

(\*1) Derivative transactions recorded in "Trading Assets" and "Trading Liabilities" or in "Other Assets" and "Other Liabilities" are presented collectively. Receivables and payables arising from derivative transactions are presented on a net basis. Negative figures represent a liability balance after netting.

(\*2) As for derivative transactions applying hedge accounting, ¥(270,067) million (U.S. \$(1,865) million) is recorded on the interim consolidated balance sheets as of September 30, 2022.

(\*3) Derivative transactions qualifying for hedge accounting include interest rate swaps designated as hedging instruments to fix cash flows of hedged items such as loans and bills discounted, and deferred hedges have been adopted, in principle. In addition, "Practical Solution on the Treatment of Hedge Accounting for Financial Instruments that Reference LIBOR" (ASBJ PITF No.40, March 17, 2022) has been adopted to these hedge transactions.

(2) Financial assets and liabilities which are not stated at fair value on the interim consolidated balance sheets

Cash and Due from Banks, Call Loans and Bills Bought, Receivables under Resale Agreements and Receivables under Securities Borrowing Transactions, Foreign Exchanges, Call Money and Bills Sold, Payables under Repurchase Agreements, Short-Term Bonds Payables, and Borrowed Money from Trust Account are not included in the following tables because most of such transactions have short contractual terms (one year or less) and the carrying amounts approximate fair value.

(Note 1) Description of the valuation techniques and inputs used to measure fair value

### Monetary Claims Bought

Among monetary claims bought, securitized products are stated at reasonably calculated prices, which are equivalent to market prices, such as counterparties' quoted prices or dealer/broker-quoted prices and are classified into Level 3 if those prices are comprised of significant unobservable inputs and classified into Level 2 otherwise. Fair values for all other monetary claims bought are principally calculated in the same manner as Loans and Bills Discounted and mainly classified into Level 3.

### Trading Assets

Bonds and other securities held for trading purposes whose fair values are stated at dealer association prices or counterparties' quoted prices are classified into Level 1 or

Level 2 depending on the level of market activity. Others whose fair values are calculated by discounting future cash flows to their present values using observable inputs, are classified into Level 2.

### Money Held in Trust

Securities managed as trust assets in money held in trust, which are individually managed with the principal objective of securities portfolio management, are stated at quoted market prices or dealer/broker-quoted prices and mainly classified into Level 1 based on the level of the components.

Notes regarding money held in trust by holding purposes are presented under the "Money Held in Trust" section.

### Securities

Listed stocks are stated at quoted market prices and mainly classified into Level 1 depending on the level of market activity.

Bonds are stated at quoted market prices announced in exchange traded transactions, over-the-counter transactions, and others, and classified into Level 1 if they are traded in an active market. If the market is not active, even though bonds are stated at quoted market prices, they are classified into Level 2. Bonds stated at prices obtained from a third party, such as pricing services and dealers/brokers, are classified into Level 3 if those prices are comprised of significant unobservable inputs, and classified into Level 2 otherwise. Fair values of certain bonds are calculated by classifying them according to their internal ratings and maturities, and discounting the aggregate principal and interest by the interest rate which takes into account risk factors, including credit risks. If the interest rate is a significant unobservable input, the fair values of the bonds are classified into Level 3, otherwise Level 2.

Fair values of listed investment trusts and funds are stated at market prices quoted by exchanges and primarily classified into Level 1 based on the level of market activity. Investment trusts and funds for which no market transaction prices are available, including privately placed investment trusts, are stated at fair value based on factors, such as the net asset value, if there are no significant restrictions on the cancellation or repurchase request that would require compensation for the risk from market participants, and are primarily classified into Level 2.

### Loans and Bills Discounted

Fair values of loans and bills discounted are calculated by grouping loans according to loan terms, internal ratings, and maturities; and discounting the aggregate principal and interest by the interest rate which takes into account risk factors, including credit risks. However, floating-rate loans for which their carrying amounts are deemed to approximate fair value, due to the nature of the loan or the borrower's credit situation subsequent to the execution of the loans, are stated at their carrying amounts. For claims executed to borrowers who went into legal bankruptcy, virtual bankruptcy, and possible bankruptcy, estimated loan losses are calculated based on the present value of estimated future cash flows or the expected recoverable amounts from collateral or guarantees. Therefore, fair values for these claims are stated at the amounts by deducting the allowance for loan losses from the amounts in the interim consolidated

balance sheets at the interim consolidated balance sheet date because such deducted amounts approximate fair value. Loans without stated maturities (as the amount of credit is limited to the value of the collateral or due to some other special characteristics) are stated at their carrying amounts as the carrying amounts are deemed to approximate the fair value because of the expected repayment periods and the interest terms. These fair values are classified into Level 3.

### Lease Receivables and Investment Assets

Fair values of lease receivables and investment assets are calculated by grouping these assets according to the types of receivables, internal ratings, maturities, and others, and discounting the aggregate principal and interest by the interest rate which takes into account risk factors, including credit risks. These fair values are classified into Level 3.

### Deposits and Negotiable Certificates of Deposit

Demand deposits are stated at the amount that would have to be paid on demand at the interim consolidated balance sheet date (carrying amount). Time deposits with a fixed rate are grouped by product type and stated at the present value of their future cash flows discounted by the rates that would be newly used on the same type of deposits. Floating-rate time deposits and fixed-rate time deposits with short maturities (one year or less) are stated at their carrying amounts because the carrying amounts approximate the fair value. These fair values are classified into Level 2.

### Borrowed Money

Borrowed money at floating rates is stated at their carrying amounts. The carrying amounts are deemed to approximate fair value because such amounts reflect short-term market interest rates, and there have been no significant changes in credit condition subsequent to undertaking the borrowed money. Fair values of borrowed money at fixed rates are calculated by discounting their future cash flows by the interest rate adjusted for the residual term and credit risk. Fair values for obligations with short maturities (one year or less) are stated at their carrying amounts because they approximate fair value. These fair values are classified into Level 2.

**Bonds Payable**

Bonds issued by SuMi TRUST Bank and its consolidated subsidiaries are stated at market prices if such prices are available. Fair values for other bonds are calculated by discounting future cash flows to their present values by the interest rate adjusted for the residual term and credit risk. These fair values are classified into Level 2.

**Derivative transactions**

The fair values of listed derivatives, including interest rates, bonds, currencies, and stocks, are classified into Level 1 as these amounts are measured using the liquidation price quoted by exchanges, given that the liquidation price represents the latest transaction price, and the unadjusted quoted price in an active market can be used.

The fair values of over-the-counter derivative transactions,

including embedded derivatives separated from the host contract and accounted for as a derivative, in other words, derivatives other than listed derivatives, are, in principle, measured by a valuation method, including the following: the present value of the estimated future cash flows and the option valuation model, which use inputs such as observable interest rate and exchange rate. The fair values of these transactions take into account credit risks of the counterparties and SuMi TRUST Bank. The valuation models applied in certain transactions utilize unobservable inputs in markets, such as correlations in the past. Over-the-counter derivative transactions are classified into Level 2 if observable inputs are available or the impact of unobservable inputs to the fair values is not significant. If the impact of unobservable inputs to the fair values is significant, they are classified into Level 3.

(Note 2) Quantitative information about financial assets and liabilities measured and stated on the interim consolidated balance sheets at fair value and classified into Level 3

**(1) Quantitative information on significant unobservable inputs**

Quantitative information on significant unobservable inputs for the interim period ended September 30, 2022, consists of the following:

	Valuation technique	Significant unobservable inputs	Range
<b>Securities</b>			
Corporate bonds	Discounted present value method	Discount Rate	1.2%
<b>Derivative Transactions</b>			
Interest Rate Related Transactions	Option valuation model	Correlation between interest rate and foreign exchange rate	(42.5)% - (7.6)%
		Correlation between interest rates	12.8%

(2) Reconciliation between the beginning and ending balances, and net unrealized gains (losses) recognized in the profit or loss in the period

Reconciliation between the beginning and ending balances, and net unrealized gains (losses) recognized in the profit or loss in the period ended September 30, 2022, are as follows:

	Millions of Yen							
	Sep. 30, 2022							
	Beginning balance	Profit or losses for the period (*1)	Other comprehensive income (*2)	Net amount of purchase, issuance, sale, and settlement	Transfer to Level 3 (*3)	Transfer from Level 3 (*3)	Ending balance	Net unrealized gains (losses) on financial assets and liabilities held at interim consolidated balance sheet date recognized in profit or losses of the period (*1)

Securities	\$ 15	\$ —	\$ 2	\$ (7)	\$ —	\$ —	\$ 9	\$ —
Derivative Transactions (Interest Rate Related Transactions) (*4)	8	0	—	—	—	—	8	0

(\*1) The amounts shown in the table above are included in "Trading Income" and "Trading Expenses" in the interim consolidated statements of income.

(\*2) The amounts shown in the table above are included in "Valuation Differences on Available-for-Sale Securities" under "Other Comprehensive Income (losses)" in the interim consolidated statements of comprehensive income.

(\*3) The amounts of transfer from or to Level 3 fair value are relevant to the changes in the observability of the inputs. The transfer was made at the end of the current interim period.

(\*4) Derivative transactions recorded in "Trading Assets" and "Trading Liabilities" or in "Other Assets" and "Other Liabilities" are presented collectively. Receivables and payables arising from derivative transactions are presented on a net basis. Negative figures represent a liability balance after netting.

## (3) Description of the fair value valuation process

At the SuMi TRUST Bank Group, the middle division creates policies and procedures for the calculation of fair values and procedures for the use of fair value valuation models, and based on them, the front and middle divisions collaboratively establish the fair value valuation model. In addition, the middle and other divisions verify the reasonableness of the valuation methods and the inputs used, and the appropriateness of the classification of the fair value level.

For the calculation of the fair value, the valuation model, which represents the nature, characteristics, and risks of each asset in the most appropriate manner, is utilized. Moreover, if quoted prices obtained from third parties are used, those prices are verified using an appropriate method, such as the review of the valuation method and the inputs used and comparison with the fair values of similar financial instruments.

## (4) Description of the sensitivity of the fair value to changes in significant unobservable inputs

**Discount Rate**

The discount rate is determined for each financial asset and calculated based on the risk-free rate that incorporates other risk factors, such as credit risk. A significant increase (decrease) in the discount rate would generally result in a significant decrease (increase) in the fair value.

**Correlation**

Correlation is an indicator of the relation of changes between variables, such as interest rate and exchange rate. Correlation is used in the valuation technique of complex derivatives and estimated based on historical results. A significant change in correlation would generally result in a significant increase or decrease in a fair value according to the nature and contractual terms and conditions of the financial instrument.

(Note 3) Interim consolidated balance sheet amounts of equity securities with no market prices, etc. and investments in partnership, etc. are as follows. These amounts are not included in "Securities" stated on the tables disclosed in "Fair Values of Financial Instruments and Breakdown by Input Level."

	Millions of Yen	Millions of U.S. Dollars
	Sep. 30, 2022	Sep. 30, 2022
Equity Securities with No Market Prices, etc. (*1)(*2)	¥ 81,988	\$ 566
Investments in Partnership, etc. (*3)	236,553	1,634

(\*1) Unlisted stocks are included in "Equity securities with no market prices, etc." and their fair values are not disclosed in accordance with Paragraph 5 of "Implementation Guidance on Disclosures about Fair Value of Financial Instruments" (ASBJ Guidance No.19, March 31, 2020).

(\*2) Impairment losses of ¥442 million (U.S. \$3 million) are recognized against Unlisted Stocks and others for the six-month period ended September 30, 2022.

(\*3) "Investments in partnership, etc." mainly include silent partnerships and investment partnerships. These fair values are not disclosed in accordance with Paragraph 24, Article 16 of Guidance for Application of Fair Value Measurement.

## Securities

- \*1. In addition to the "Securities" presented in the interim consolidated balance sheets, the following information includes loan-backed trust deeds reported under "Monetary Claims Bought."
- \*2. "Stocks in Subsidiaries and Affiliated Companies" are presented as a note to the interim financial statements.

### 3. Impairment of Securities

Securities other than equity securities with no market prices and investments in partnerships, or those deemed to be trading securities, are treated as impaired when their fair values have declined significantly from the acquisition cost and it is deemed unlikely to recover to the acquisition cost. Such securities are recorded at their fair values in the interim consolidated balance sheets. The difference between the acquisition cost and the fair values is recognized as an impairment loss.

Impairment losses of ¥127 million (U.S. \$1 million) on stocks and ¥941 million (U.S. \$7 million) on others were recognized during the current interim period.

The criteria for determining whether the fair values of securities have significantly declined are as follows:

- For securities whose issuers are classified as “normal” under the asset self-assessment, a decline of 50% or more in the fair values compared with the acquisition cost is deemed to be significant;
- For securities whose issuers are classified as “close-observation borrowers,” a decline of 30% or more in the fair values compared with the acquisition cost is deemed to be significant; and
- The fair values of some securities are deemed unrecoverable and impairment losses are recognized when their fair values have declined more than 30% but less than 50% from the acquisition cost and the fair values have continued to decline over a certain period.

### Money Held in Trust

#### 1. Held-to-Maturity Money Held in Trust

There is no held-to-maturity money held in trust as of September 30, 2022.

## Segment Information

### 1. Reportable Segment Information

The SuMi TRUST Bank Group's reportable segments are defined as operating segments for which discrete financial information is available. The Board of Directors and the Executive Committee periodically receive reporting on the operating results and other relevant information from each of the reportable segments to make decisions about the allocation of management resources and to assess performance.

The reportable segments of the SuMi TRUST Bank Group comprises services of SuMi TRUST Bank on a non-consolidated basis and are presented below:

Retail Business:

Provision of services to individual customers

Wholesale Business:

Provision of services to corporate customers

Investor Services Business:

Provision of services to investors

Real Estate Business:

Provision of services related to the real estate business

Global Markets Business:

Marketing operations, market-making operations, investment operations, and financial management operations

### Change in Reportable Segments

The SuMi TRUST Group aims to promote and lead a virtuous circle of funds, assets, and capital by various stakeholders through provision of high value-added products and services and investments to create new values. Effective as of April 1, 2022, reorganization of SuMi TRUST Bank, Limited has been implemented.

Reportable segments of the SuMi TRUST Bank Group were previously divided into "Retail Total Solution Services Business," "Wholesale Financial Services Business (Wholesale Total Solution Services Business and Wholesale

Asset Management Business),” “Stock Transfer Agency Services Business,” “Real Estate Business,” “Fiduciary Services Business,” and “Global Markets Business.” Starting from the six months ended September 30, 2022, the SuMi TRUST Bank Group has reclassified them into the following segments: “Retail Business (former Retail Total Solution Services),” “Wholesale Business (former Wholesale Total Solution Services Business and former Stock Transfer Agency Services Business),” “Investor Services Business (former Wholesale Asset Management Business and former Fiduciary Services Business),” “Real Estate Business,” and “Global Markets Business.”

## 2. Method for Calculating Gross Business Profit and Net Business Profit by Reportable Segment

Segment information is prepared based on internal management reports and the accounting policies used for the reportable segments are generally the same as those presented under “Significant Accounting Policies and Practices”; however, the reportable segments are accounted for in accordance with the rules for internal management.

Additionally, income earned from inter-segment and cross-segment transactions is calculated by applying the criteria (market prices) specified in the rules for internal management.

“Fixed Assets” disclosed in the assets by reportable segments are the total amount of tangible fixed assets and intangible fixed assets. These assets are owned by SuMi TRUST Bank and allocated to each segment.

## 3. Profit or Loss and Fixed Assets by Reportable Segment

## Capital Adequacy Ratio

Consolidated

We calculate the consolidated BIS capital adequacy ratio in line with provisions of Article 52-25 of the Banking Act and on the basis of calculation formula prescribed under the criteria for judging whether a bank holding company and its subsidiaries' capital adequacy ratios are appropriate in light of assets held (the Financial Services Agency 2006 Notification No. 20, hereinafter referred to as the "FSA Bank Holding Company Capital Adequacy Notification").

As of the end of September 2022, we used the Advanced Internal Ratings-Based (IRB) Approach for the calculation of credit risk-weighted assets, the Advanced Measurement Approach for the calculation of operational risk, and market risk regulations.

## Scope of Consolidation

Consolidated

(1) There is no difference between companies belonging to the group of companies subject to the consolidated BIS capital adequacy ratio as prescribed by the FSA Bank Holding Company Capital Adequacy Notification, Article 3 (hereinafter referred to as the "SuMi TRUST Holdings Group") and the companies included in the scope of accounting consolidation.

(2) The number of consolidated subsidiaries that belong to the SuMi TRUST Holdings Group is 57. The principal company is the following.

Name	Principal Business Operations
Sumitomo Mitsui Trust Bank, Limited	Trust and Banking Businesses

(3) There is no affiliated company that undertakes financial services subject to the FSA Bank Holding Company Capital Adequacy Notification, Article 9.

(4) There are no particular restrictions etc. on the transfer of funds and capital within the SuMi TRUST Holdings Group.

(5) Of the subsidiaries which are banking, financial and insurance entities that are outside the scope of regulatory consolidation, none failed to meet the regulatory required capital.

Notes: 1. "Number of obligors" in Column f: "Qualifying revolving retail exposures," "Residential mortgage exposures," and "Other retail exposures" are tallied with the number of loans, because it is difficult to grasp the number of some obligors.

2. Purchased receivables for retail (dilution risk and originator risk of loan participation) are not applicable.

Notes: 1. The amount of credit RWA by country or region is, in principle, calculated on the basis of where the ultimate risk of the exposure resides (based on the country or region where the borrower resides). However, with respect to securitisation exposures and equity investments in funds whose country or region are difficult to identify, calculations are made according to the country or region in which the exposure is booked.

2. The ratio of the SuMi TRUST Group's exposures in the three countries or regions in which the countercyclical buffer requirement set by regulatory authorities exceeded 0 to the SuMi TRUST Group's total exposures was limited.

Note: SuMi TRUST Holdings' Basel III leverage ratio calculation was audited by KPMG AZSA LLC, an external auditor, in accordance with "Practical Guidance on Agreed-Upon Procedures Engagement for Capital Adequacy Ratio and Leverage Ratio Calculation" (Practical Guidance 4465 for Specialized Business of the Japanese Institute of Certified Public Accountants).

The certain procedure is not part of the audit of the consolidated financial statements or the audit of the internal control over the financial reporting but was conducted by the external auditor on the agreed-upon scope and under agreed-upon examination procedures, and is a report of the results presented to us. It thus does not represent an opinion or conclusion by the external auditor regarding the Basel III leverage ratio itself or parts of internal control over the procedure to calculate the ratio.

### The key drivers of material changes observed from the end of the previous interim reporting period to the end of the current interim reporting period

The decrease in leverage ratio is mainly due to the increase in total exposures resulting from increase in loans and other assets.

## Qualitative Disclosure Items for the Liquidity Coverage Ratio (LCR) on a consolidated basis

## (1) Items concerning fluctuations in the LCR over time

Our consolidated LCR has trended steadily for the most part in the past two years.

## (2) Items concerning evaluation of the LCR level

Our consolidated LCR satisfies the regulated level (100%) as required under liquidity ratio regulations and the actual LCR is roughly in line with our initial forecast. Up ahead, we do not expect our LCR to deviate significantly from the current level.

## (3) Items concerning the composition of totals for eligible high-quality liquid assets

The majority of our eligible high-quality liquid assets are reserve deposit held at central banks and sovereign bonds. There have been no material fluctuations in the composition of currencies, their types and locations. Furthermore, there has been no material difference between totals for eligible high-quality liquid assets and net cash outflows in major currencies.

## (4) Other items concerning LCR

We apply neither the “treatment for qualifying operational deposit” nor the “additional collateral required to market valuation changes based on the scenario approach.”

Furthermore, taking account of the impact to LCR, we are using month-end data in lieu of daily data for the consolidated subsidiary companies of minor importance with practical restrictions.

### Qualitative Disclosure Items for the Net Stable Funding Ratio (NSFR) on a consolidated basis

#### (1) Items concerning fluctuations in the consolidated NSFR over time

Our consolidated NSFR has remained stable mainly due to our predetermined funding policy on the sticky money.

#### (2) Items concerning special provisions for interdependent assets and liabilities

The “Special provisions for interdependent assets and liabilities” stipulated in the items under Article 99 of the Financial Services Agency Notification on Liquidity Ratio are not applied on a consolidated basis.

#### (3) Other items concerning consolidated NSFR

Our consolidated NSFR satisfies the regulated level (100%), and we do not expect NSFR to deviate significantly from the current level in the future.

Currently, the entire amount of funding from retail and small business customers is recorded as “less stable deposits.”

## Capital Adequacy Ratio

Consolidated

We calculate the BIS capital adequacy ratio on both a consolidated and non-consolidated basis in line with provisions of Article 14-2 of the Banking Act and on the basis of calculation formula prescribed under the criteria for judging whether a bank's capital adequacy ratio is appropriate in light of assets held (the Financial Services Agency 2006 Notification No. 19, hereinafter referred to as the "FSA Capital Adequacy Notification").

As of the end of September 2022, we used the Advanced Internal Ratings-Based (IRB) Approach for the calculation of credit risk-weighted assets, the Advanced Measurement Approach for the calculation of operational risk, and market risk regulations.

## Scope of Consolidation

Consolidated

(1) There is no difference between companies belonging to the group of companies subject to the consolidated BIS capital adequacy ratio as prescribed by the FSA Capital Adequacy Notification, Article 3 (hereinafter referred to as the "SuMi TRUST Bank Group") and the companies included in the scope of accounting consolidation.

(2) The number of consolidated subsidiaries that belong to the SuMi TRUST Bank Group is 37. The principal companies are the following.

Name	Principal Business Operations
Sumitomo Mitsui Trust Loan & Finance Co., Ltd.	Money Lending Business
Sumitomo Mitsui Trust Panasonic Finance Co., Ltd.	General Leasing, Installment Purchase Services, Credit Card Business
Sumitomo Mitsui Trust Realty Co., Ltd.	Real Estate Brokerage Business
Sumitomo Mitsui Trust Guarantee Co., Ltd.	Loan Guarantee Business
Sumitomo Mitsui Trust Club Co., Ltd.	Credit Card Business
Sumitomo Mitsui Trust Bank (U.S.A.) Limited	Banking, Trust Business

(3) There is no affiliated company that undertakes financial services subject to the FSA Capital Adequacy Notification, Article 9.

(4) There are no particular restrictions on the transfer of funds and capital within the SuMi TRUST Bank Group.

(5) Of the subsidiaries which are banking, financial and insurance entities that are outside the scope of regulatory consolidation, none failed to meet the regulatory required capital.

Notes: 1. "Number of obligors" in Column f: "Qualifying revolving retail exposures," "Residential mortgage exposures," and "Other retail exposures" are tallied with the number of loans, because it is difficult to grasp the number of some obligors.

2. Purchased receivables for retail (dilution risk and originator risk of loan participation) are not applicable.

## Qualitative Disclosure Items for the Liquidity Coverage Ratio (LCR) on a consolidated basis

## (1) Items concerning fluctuations in the LCR over time

Our consolidated LCR has trended steadily for the most part in the past two years.

## (2) Items concerning evaluation of the LCR level

Our consolidated LCR satisfies the regulated level (100%) as required under liquidity ratio regulations and the actual LCR is roughly in line with our initial forecast. Up ahead, we do not expect our LCR to deviate significantly from the current level.

## (3) Items concerning the composition of totals for eligible high-quality liquid assets

The majority of our eligible high-quality liquid assets are reserve deposit held at central banks and sovereign bonds. There have been no material fluctuations in the composition of currencies, their types and locations. Furthermore, there has been no material difference between totals for eligible high-quality liquid assets and net cash outflows in major currencies.

## (4) Other items concerning LCR

We apply neither the “treatment for qualifying operational deposit” nor the “additional collateral required to market valuation changes based on the scenario approach.”

Furthermore, taking account of the impact to LCR, we are using month-end data in lieu of daily data for the consolidated subsidiary companies of minor importance with practical restrictions.

### Qualitative Disclosure Items for the Net Stable Funding Ratio (NSFR) on a consolidated basis

#### (1) Items concerning fluctuations in the consolidated NSFR over time

Our consolidated NSFR has remained stable mainly due to our predetermined funding policy on the sticky money.

#### (2) Items concerning special provisions for interdependent assets and liabilities

The “Special provisions for interdependent assets and liabilities” stipulated in the items under Article 101 of the Financial Services Agency Notification on Liquidity Ratio are not applied on a consolidated basis.

#### (3) Other items concerning consolidated NSFR

Our consolidated NSFR satisfies the regulated level (100%), and we do not expect NSFR to deviate significantly from the current level in the future.

Currently, the entire amount of funding from retail and small business customers is recorded as “less stable deposits.”

Note: SuMi TRUST Holdings' Basel III leverage ratio calculation was audited by KPMG AZSA LLC, an external auditor, in accordance with "Practical Guidance on Agreed-Upon Procedures Engagement for Capital Adequacy Ratio and Leverage Ratio Calculation" (Practical Guidance 4465 for Specialized Business of the Japanese Institute of Certified Public Accountants).

The certain procedure is not part of the audit of the non-consolidated financial statements or the audit of the internal control over the financial reporting but was conducted by the external auditor on the agreed-upon scope and under agreed-upon examination procedures, and is a report of the results presented to us. It thus does not represent an opinion or conclusion by the external auditor regarding the Basel III leverage ratio itself or parts of internal control over the procedure to calculate the ratio.

**The key drivers of material changes observed from the end of the previous interim reporting period to the end of the current interim reporting period**

The decrease in leverage ratio is mainly due to the increase in total exposures resulting from increase in loans and other assets.

## Qualitative Disclosure Items for the Liquidity Coverage Ratio (LCR) on a non-consolidated basis

## (1) Items concerning fluctuations in the LCR over time

Our non-consolidated LCR has trended steadily for the most part in the past two years.

## (2) Items concerning evaluation of the LCR level

Our non-consolidated LCR satisfies the regulated level (100%) as required under liquidity ratio regulations and the actual LCR is roughly in line with our initial forecast. Up ahead, we do not expect our LCR to deviate significantly from the current level.

## (3) Items concerning the composition of totals for eligible high-quality liquid assets

The majority of our eligible high-quality liquid assets are reserve deposit held at central banks and sovereign bonds. There have been no material fluctuations in the composition of currencies, their types and locations. Furthermore, there has been no material difference between totals for eligible high-quality liquid assets and net cash outflows in major currencies.

## (4) Other items concerning LCR

We apply neither the “treatment for qualifying operational deposit” nor the “additional collateral required to market valuation changes based on the scenario approach.”

### Qualitative Disclosure Items for the Net Stable Funding Ratio (NSFR) on a non-consolidated basis

#### (1) Items concerning fluctuations in the non-consolidated NSFR over time

Our non-consolidated NSFR has remained stable mainly due to our predetermined funding policy on the sticky money.

#### (2) Items concerning special provisions for interdependent assets and liabilities

The “Special provisions for interdependent assets and liabilities” stipulated in the items under Article 101 of the Financial Services Agency Notification on Liquidity Ratio are not applied on a non-consolidated basis.

#### (3) Other items concerning non-consolidated NSFR

Our non-consolidated NSFR satisfies the regulated level (100%), and we do not expect NSFR to deviate significantly from the current level in the future.

Currently, the entire amount of funding from retail and small business customers is recorded as “less stable deposits.”
