- Scope of registered activities: Business activities relating to trust and banking
- Certifying body: Japan Quality Assurance Organization (JQA)

(For reference)

**Environmental Policy of Sumitomo Trust (revised as of July 30, 2008)**

- We will work to promote social awareness of the importance of the environment and to lower the environmental risks of the society by providing financial products and services to customers that will contribute to the preservation of the global environment and the establishment of a sustainable society;
- We will strive to preserve the environment and achieve sustainability through greater awareness of the burden that business activities create in terms of consumption of natural resources as well as the generation of waste, and make efforts to save energy, reduce consumption of natural resources and recycle used resources;
- We will help prevent pollution by continuous monitoring and improvement efforts relating to environmental protection;
- We will abide by all laws, regulations and agreements pertaining to environmental protection;
- We will establish and periodically review environmental aims and targets, and will continuously strengthen our activities regarding the environmental issues;
- We will thoroughly implement this policy and conduct an environmental education program in-house and at our affiliate companies;
- We will publicize this policy and work to promote environmental protection activities by creating communication channels outside the company.

Hitoshi Tsunekage  
President & CEO
