

Service to Society Aimed at Development and Spread of Trust System

Trust Future Forum

Trust Future Forum, a public interest incorporated foundation, has carried out surveys and research to contribute to the spread and development of Japan's trust system. With the aim of contributing to improve the quality of national living standards and domestic economic development, we offer subsidiaries to support outstanding research and activities. Established in July 1987, the Trust Future Forum will celebrate its 30th year anniversary in 2017.

Social Contributions via Survey and Research

One pillar of the mainstay survey and research business is establishing research themes relating primarily to the Trust Act and self-directed research carried out in study group meetings, and on mainly financial and economic matters, consigning research to a specialist research institute. These research results are released to the general public through book publications and research paper issuance. Since its

founding, the Trust Future Forum has released 83 research books as of December 2019, and researchers and practitioners use them.

In pursuing research, scholars involved in trust research focused mainly on civil law, commercial law, and Anglo-American law made up the core of the research effort, and the research results became the cumulative foundation of intellectual capital for Japan relating to the trust system. The Trust Future Forum contributed in unparalleled ways in Japan as a specialist research institute such as when its research was referenced in amending Japan's Trust Act in 2007.

In the more than 10 years since the Trust Act amendment, a new era is emerging due to new ways of utilizing trusts, new methods, and new concepts as social issues have grown even more serious. The Trust Future Forum will continue as a public interest incorporated foundation to promote social contribution and activities with a high public interest.

Themes of Self-Directed and Consignment Research (December 2019)

Self-Directed Research	Research on trust banking theory and modern issues
	Research on estate management, investment, and succession, as well as trusts
	Research on legal principles of modern trusts
	Research on trust banking theory and application with a comparison of the UK and Japan
	Research on financial transactions and taxation
	Research on legal issues in trust banking practices
	Research on new proprietary value and trusts in an increasingly digitalized society

Grants, Social Contributions via Endowed Courses

The grant-making program supports surveys, research, and activities on trusts and related finance and economics, and is the Forum's second pillar. It accepts applications from researchers in Japan and overseas, practitioners, and various organizations, and offers grants for research expenses, etc.

In conjunction, with the aim of spreading trusts and

promoting understanding, the Forum has established endowed courses on the Trust Act aimed at college undergraduates. In Japan, where an increasing number of people are bearers of trusts, these courses offer students a precious opportunity to properly obtain knowledge on the trust system while young.

Grants Made in Fiscal Year 2019

Nurturing relationships of trust and its cultural devolution in an information-oriented society: Theoretical analysis based on an information design game
