

Trust Forum Foundation

Service to Society Aimed at Development and Spread of Trust System

Trust Forum Foundation

Trust Forum Foundation, a public interest incorporated foundation, has carried out surveys and research to contribute to the spread and development of Japan's trust system. With the aim of contributing to improve the quality of national living standards and domestic economic development, we offer subsidiaries to support outstanding research and activities. Established in July 1987, the Trust Forum Foundation will celebrate its 30th year anniversary in 2017.

Social Contributions via Survey and Research

One pillar of the mainstay survey and research business is establishing research themes relating primarily to the Trust Act and self-directed research carried out in study group meetings, and on mainly financial and economic matters, consigning research to a specialist research institute. These research results are released to the general public through book publications and research paper issuance. Since its founding, the Trust Forum Foundation has released 86 research books as of December 2020, and researchers and practitioners use them.

In pursuing research, scholars involved in trust research focused mainly on civil law, commercial law, and Anglo-American law made up the core of the research effort, and the research results became the cumulative foundation of intellectual capital for Japan relating to the trust system. The Trust Forum Foundation contributed in unparalleled ways in Japan as a specialist research institute such as when its research was referenced in amending Japan's Trust Act in 2007.

In the more than 10 years since the Trust Act amendment, a new era is emerging due to new ways of utilizing trusts, new methods, and new concepts as social issues have grown even more serious. The Trust Forum Foundation will continue as a public interest incorporated foundation to promote social contribution and activities with a high public interest.

Grants, Social Contributions via Endowed Courses

The grant-making program supports surveys, research, and activities on trusts and related finance and economics, and is the Forum's second pillar. It accepts applications from researchers in Japan and overseas, practitioners, and various organizations, and offers grants for research expenses, etc.

In conjunction, with the aim of spreading trusts and promoting understanding, the Forum has established endowed courses on the Trust Act aimed at college undergraduates. In Japan, where an increasing number of people are bearers of trusts, these courses offer students a precious opportunity to properly obtain knowledge on the trust system while young.

Meanwhile, we are currently setting up a new course for elderly clients on the topic of donations using trust schemes.
