

住友信託銀行

2009

INTERIM REPORT

Six Months Ended September 30, 2009

Financial Highlights

Earnings

During the first half of fiscal year 2009, despite the increase in market-related income, consolidated net business profit before credit costs decreased by 7.5 billion yen year on year, to 87.7 billion yen, as The Sumitomo Trust and Banking Company, Limited* Group as a whole saw a decline in income from fee revenue due to the effects of a decline in the market value of entrusted assets and a decrease in real estate brokerage volume.

Net income decreased by 9 billion yen year on year, to 19.2 billion yen. This was attributable to higher allowance for doubtful loans we set aside for our clients whose financial conditions have deteriorated, while we realized the gain on retirement of perpetual subordinated bonds.

* Hereinafter Sumitomo Trust or STB.

Financial Soundness

The balance of non-performing loans (disclosed under the Financial Reconstruction Law, banking and principal guaranteed trust accounts combined, non-consolidated basis) at the end of September 2009 increased by 192.7 billion yen from the end of the previous fiscal year, to 309.2 billion yen, mainly because of an increase of 168.5 billion yen in doubtful loans due to a deterioration in the financial conditions of some of our domestic clients. The ratio of non-performing loans (the proportion of assets classified under the Financial Reconstruction Law to total loan balance) increased by 1.6 percentage points from the end of the previous fiscal year, to 2.5%. However, coverage ratio for “Doubtful loans,” which is secured by collateral values and allowance for loan losses, stands at 96%, and financially reaches a satisfactory level.

Capital (Net Assets)

The consolidated BIS capital adequacy ratio at the end of September 2009 increased by 2.08 percentage points from the end of the previous fiscal year, to 14.17%. Consolidated Tier I capital ratio also increased from the end of the previous fiscal year by 2.25 percentage points, to 9.88%.

The “goodwill” generated through the acquisition of Nikko Asset Management Co., Ltd. (“Nikko AM”) on October 1, 2009 is expected to reduce both consolidated BIS capital adequacy ratio and consolidated Tier I capital ratio by approximately 0.6%.

Dividend Policy

In fiscal year 2009, Sumitomo Trust maintains the dividend policy, consolidated payout ratio of approximately 30%, which has been decided in midterm management plan.*

Based on the dividend policy mentioned above, our annual dividends for fiscal year 2009 will be 10.00 yen per share (consolidated dividend payout ratio of 39.5%), the same as the previous fiscal year. Sumitomo Trust distributed interim dividends for fiscal year 2009 of 5.00 yen per share, which corresponded to the half of the projected annual dividends mentioned above.

* Consolidated dividend payout ratio in fiscal year 2011 is not decided yet.

• Financial Highlights for the First Half Fiscal Year 2009

Message from the President and CEO

In order to accurately and speedily respond to the ever-more complex and advanced needs of our clients in the New Paradigm that has been ushered in after the global financial crises, Sumitomo Trust has acquired Nikko AM and has reached a basic agreement on the management integration with Chuo Mitsui Trust Holdings, Inc. (“Chuo Mitsui”). The new trust bank group aims to become a global player as “The Trust Bank Group taking pride as Japan’s leading trust bank group which boasts the largest scale and the highest status by combining banking, asset management and administration and real estate businesses.”

Interim Earnings in Adverse Conditions

Our consolidated net business profit before credit costs in the first half of the fiscal year 2009 decreased by 7.5 billion yen year on year, to 87.7 billion yen. This was due to the drop in the market value of entrusted assets such as pension trusts and mutual funds in the fiduciary services business as well as the decrease in net fees and commissions for real-estate brokerage, mutual funds and individual annuity sales, despite the increase in market-related income.

Consolidated total substantial credit costs increased by 16.2 billion yen year on year, to 40.8 billion yen, mainly due to the higher allowance in response to the increase in doubtful loans caused by the worsening financial conditions of some of our domestic clients, while we realized the gain of 9.4 billion yen from retirement of perpetual subordinated bonds. As a result, consolidated net income decreased by 9.0 billion yen year on year, to 19.2 billion yen.

Reinforced Financial Soundness

The consolidated BIS capital adequacy ratio at the end of September 2009 increased by 2.08 percentage points from the end of the previous fiscal year, to 14.17%. The consolidated Tier I ratio increased by 2.25 percentage points to 9.88%. This is because Tier I capital increased due to our 109.0 billion yen issuance of preferred shares as well as improvement in unrealized losses of available-for-sale securities, and because risk-weighted assets decreased by 1.1 trillion yen (-7.7%) from the end of the previous fiscal year.

Even after taking into account the goodwill generated through the purchase of Nikko AM on October 1, 2009, which is expected to reduce both the consolidated BIS capital adequacy ratio and consolidated Tier I capital ratio by approximately 0.6%, we believe that we have ensured a sufficient capital level.

The balance of non-performing loans (disclosed under the Financial Reconstruction Law, banking and principal guaranteed trust accounts combined, non-consolidated basis) at the end of September 2009 increased by 192.7 billion yen from the end of the previous fiscal year, to 309.2 billion yen, mainly because of an increase of 168.5 billion yen in doubtful loans.

However, we believe we have secured a sufficient level of financial reserves, evident from our coverage ratio of 96% by collateral values and allowances for the entire loan amounts.

On the other hand, loans to special mention debtors decreased by 226.2 billion yen from the end of the previous fiscal year, to 619.1 billion yen, due to the repayments and downgrades to doubtful loans.

Dividends Remain Unchanged

We plan to keep our annual dividends for fiscal year 2009 unchanged at the previous year's level of 10.00 yen per share (consolidated dividend payout ratio of 39.5%), based on our dividend policy of approximately 30% payout ratio. We distributed interim dividends for fiscal year 2009 of 5.00 yen per share, which corresponded to the half of the projected annual dividends mentioned above.

Breaking Through the New Paradigm by M&A and Management Integration

In order to drastically reinforce asset management and custody businesses that serve as one of our core businesses, we acquired Nikko AM in October 2009. In addition, to accelerate the achievement of the objectives raised in the midterm management plan, at one stroke, and lead to significant leap forward, we reached a basic agreement on the management integration with Chuo Mitsui in November, subject to the approval of our shareholders and relevant authorities.

• Acquisition of Nikko AM

— Drastic reinforcement of investment marketing and asset management businesses

Our aim of the acquisition of Nikko AM is to make maximum use of our mutually complimentary abilities to drastically reinforce our asset management and custody businesses as well as investment marketing business. Specifically, we will utilize Nikko AM's strengths in product development and sales support capabilities to further enhance our investment marketing capabilities that target retail clients as well as overseas institutional investors and expand our business franchise of our asset management business. Thereby, we will provide high added-value financial products as one of Japan's largest asset management groups that hold one of the top positions in terms of market share of both corporate as well as individual investors.

• Management Integration with Chuo Mitsui Trust Group

The financial crisis has led to major structural changes in the economy and society. Against this background, client needs in managing their assets are becoming increasingly advanced and complex. In this context, both companies completely agree that we are truly entering an era where a trust group, featuring high levels of expertise and broad scope of businesses, should give full play to its strengths. Based on our shared understanding of the management environment, we agreed to create a new trust bank group, having the combination of its expertise and comprehensive capability, that can provide its clients with better and swifter comprehensive solutions than ever before with an intended target date set for April 2011. We will achieve this by combining both companies' managerial resources and fusing both groups' strengths to address the increasingly advanced and complex issues that clients face in managing their assets.

After the management integration, we will have approximately 58 trillion yen (as of March 31, 2009) of assets under management and approximately 181 trillion yen (as of March 31, 2009) of assets under custody, making us the largest asset management and administration institution in Japan. For sales volume of mutual funds and annuity insurance to retail clients, we will be ranked third among Japanese banks after the two megabanks, dramatically boosting our presence as a financial group which manages financial assets for retail clients. Furthermore, in real estate business and stock transfer agency services, we will become first or second among trust banks, enabling further improvements in our expertise with stronger information network and higher service quality.

Aspiring to be "The Trust Bank"

We have expressed our beliefs in creating a new trust bank as "The Trust Bank." It means, "The Trust Bank Group taking pride as Japan's leading trust bank group which boasts the largest scale and the highest status by combining banking, asset management and administration and real estate businesses." This is nothing different from our endeavor to further expand our original vision. In each business domain, we will build an unshakeable relationship with our clients that is based on trust through the provision of products and services with the highest standard, and aim to become a global player as a trust bank group representing Japan.

I would like to request the continued support of our shareholders and investors.

January 2010

Hitoshi Tsunekage President and CEO

Basis of Presenting Financial Statements

The accompanying translated consolidated financial statements are compiled from the audited consolidated financial statements that are prepared for Japanese domestic purposes in accordance with the Financial Instruments and Exchange Act of Japan (hereinafter the "FIEA"), the Banking Act of Japan and accounting principles and practices generally accepted in Japan (hereinafter "Japanese GAAP"). Certain parts of Japanese GAAP are partly different from International Financial Reporting Standards in terms of application and disclosure requirements.

The accounts of overseas subsidiaries of the Sumitomo Trust and Banking Co., Ltd. (hereinafter "the Bank") are based on their accounting records maintained in conformity with generally accepted accounting principles prevailing in the respective countries of domicile.

The accompanying consolidated financial statements are restructured and translated into English (with some modifications and expanded descriptions for facilitation of understanding by readers outside Japan) from the consolidated financial statements in accordance with Japanese GAAP and filed with appropriate Local Finance Bureau of the Ministry of Finance as required by the FIEA. Some supplementary information included in the statutory Japanese consolidated financial statements, but not required for fair presentation, is not presented in the accompanying financial statements.

The Bank, a Japanese corporation, maintains its records and prepares its financial statements in Japanese yen. The accompanying U.S. dollar financial statements are translated from yen-base financial statements for convenience, and only as a matter of arithmetical computation, at the rate of 90.22 yen to 1.00 U.S. dollar, the exchange rate prevailing at September 30, 2009. The translations would not be construed as representations that the Japanese yen amounts have been, could have been, or could in the future be, converted into U.S. dollars at this or any other rate of exchange.

In accordance with the FIEA, amounts of less than one million yen are omitted. As a result, the totals in yen, and accordingly in U.S. dollars, shown in the consolidated financial statements do not necessarily agree with the sum of the individual amounts.

Certain amounts in prior periods have been reclassified to the current presentation.

Significant Accounting Policies and Principles

1. Trading Account Activities

Trading account activities are conducted for short-term profit-taking by market-making and sales arbitrages. Trading assets and liabilities include securities, commercial paper and financial derivatives.

The mark-to-market accounting method is adopted for such financial instruments, all of which are stated at fair value as "Trading Assets" or "Trading Liabilities" in the consolidated balance sheets. Gain and losses on trading transactions are shown as "Trading Income" or "Trading Expenses" on a trade date basis.

Trading account securities and monetary claims are stated at the fair value of the balance sheet dates and financial derivatives for trading activities, such as swaps, futures and options, are valued on the assumption that they are settled at the balance sheet dates.

Gain and losses on trading transactions shown as "Trading Income" and "Trading Expenses" include interests, changes in fair value of securities and monetary claims in the current period, and changes in values of financial derivatives on the assumption that they are settled at the balance sheet dates.

2. Evaluation for Securities

(a) Under the accounting standard for financial instruments, the Bank is required to explicitly determine the objectives of holding each security and classify them into (i) securities held for trading purposes (hereinafter trading securities), (ii) debt securities intended to be held to maturity (hereinafter held-to-maturity debt securities), (iii) equity securities issued by subsidiaries and affiliated companies, or (iv) all other securities that are not classified in any of the above categories (hereinafter available-for-sale securities).

Held-to-maturity debt securities are carried at amortized cost, using the moving average method. Equity securities issued by subsidiaries and affiliated companies that are neither consolidated nor accounted for using the equity method are stated at moving average cost. Japanese stocks classified as available-for-sale securities with fair value are revaluated at the average market price of the final month in the first half of the fiscal year. Available-for-sale securities other than Japanese stocks with fair value are revaluated at the balance sheet dates. Available-for-sale securities with no available fair value are carried at cost or amortized cost using the moving average method.

Valuation difference on available-for-sale securities is recorded as a separate component of "Net Assets" and reported in the consolidated balance sheets.

(b) Securities invested in money held in trust are revaluated as the same treatment as 1 or 2 (a) mentioned above.

3. Financial Derivatives other than Trading Purposes

Financial derivatives other than trading purposes are valued on the assumption that they are settled at the balance sheet dates (the mark-to-market accounting method).

4. Depreciation Methods

(a) Tangible Fixed Assets (except lease assets)

Tangible fixed assets except buildings acquired on and after April 1, 1998 are depreciated using the declining-balance method over the following estimated useful lives. Buildings acquired on and after April 1, 1998 are depreciated using the straight-line method over the following estimated useful lives.

Buildings:	3 to 60 years
Equipment:	2 to 20 years

Tangible fixed assets of subsidiaries are depreciated mainly using the declining-balance method over the estimated useful lives.

(b) Intangible Fixed Assets (except lease assets)

Intangible fixed assets are depreciated using the straight-line method. Expenses related to software for internal use are capitalized in “Intangible Fixed Assets” and amortized over the estimated useful lives, generally 5 years.

Goodwill is amortized over the duration which is reasonably determined by each case within 20 years. However, immaterial goodwill is depreciated during each fiscal year.

(c) Lease Assets

Leased assets for finance leases without transfer of ownership in “Tangible Fixed Assets” are depreciated using the straight-line method over the lease term assuming no salvage value.

5. Allowance for Loan Losses

Allowance for loan losses is provided as detailed below, pursuant to the internal rules for self-assessment of assets quality (hereinafter “Self-Assessment Rules”) and the internal rules regarding allowance for loan losses.

For claims to debtors who are legally bankrupt (due to bankruptcy, subject to the Civil Rehabilitation Act of Japan, suspension of transactions with banks by the rules of clearinghouses, etc.) or virtually bankrupt, the specific allowance is provided based on the amount of claims, deducting the amount expected to be collected through the disposal of collateral or execution of guarantees.

For claims to debtors who are likely to become bankrupt, the specific allowance is provided for the amount considered to be necessary based on an overall solvency assessment, deducting the amount expected to be collected through the disposal of collateral or execution of guarantees.

For claims to debtors with more than certain amount of the Bank’s claims to debtors, (i) who are likely to become bankrupt, (ii) to whom the Bank has Restructured loans, or (iii) whom the Bank classifies as special mention debtors other than substandard ones meeting certain credit criteria, where future cash flows from capital collection and interest receipt could be reasonably estimated, an allowance is provided for the difference between the present value of expected future cash flows discounted at the original contracted interest rate before relaxing to support and the current book value of the claims.

For claims that are classified into the categories other than above, the general allowance is provided based on the historical loan-loss-ratio.

All claims are assessed by branches and the Global Credit Supervision Department I and II based on the Self-Assessment Rules. The Corporate Risk Management Department, which is independent from the branches and the Global Credit Supervision Department I and II, subsequently conducts the audits of their assessments, and the allowance is adjusted to reflect the audit results.

As for the consolidated subsidiaries, allowance for loan losses is provided for general claims based on the historical loan-loss-ratio, and allowance for loan losses is provided individually for certain claims based on the amount expected to be uncollectible.

And for claims to debtors who are legally bankrupt or virtually bankrupt with collateral or guarantees, the expected uncollectible amount, net of amounts expected to be collected through the disposal of collateral or through the execution of guarantees, are directly deducted out of the original amount of claims. The deducted amount was 67,891 million yen.

6. Provision for Bonuses

Provision for bonuses is provided for the estimated employees’ bonuses attributable to the six months ended September 30, 2009.

7. Provision for Retirement Benefits

Provision for retirement benefits is provided based on the projected benefit obligation and the fair value of the plan assets at the balance sheet dates. Prior service cost is recognized in income or expenses using the straight-line method over the average expected remaining service years (mainly 10 years).

Actuarial gain and losses are recognized in income or expenses using the straight-line method over the average expected remaining service years (mainly 10 years).

8. Provision for Reimbursement of Deposits

Provision for reimbursement of deposits is provided for the deposits which are no longer accounted as deposit under certain conditions against the estimated future reimbursement requested by customers calculated based on the past reimbursement record.

9. Provision for Contingent Loss

Provision for contingent loss is provided for possible contingent loss on trust transactions based on individually estimated expected losses.

10. Provision for Relocation Expenses

Provision for relocation expenses is provided for the reasonably estimated costs for integrating and jointly developing office buildings in the Tokyo metropolitan area.

11. Foreign Currency Translation

Assets and liabilities denominated in foreign currencies are primarily translated into yen at the exchange rate at the balance sheet dates.

Assets and liabilities of consolidated overseas subsidiaries are translated into yen at the exchange rate of each balance sheet date.

12. Accounting for Leases

As for the Bank and its domestic consolidated subsidiaries, transactions of finance leases without transfer of ownerships started before April 1, 2008 have been accounted for according to the same accounting treatment used in operating leases.

Besides, as for the domestic consolidated subsidiaries, the income and expenses for transactions of finance leases without transfer of ownerships are accounted for by the sales revenue and costs of goods sold when lease payments are collected.

13. Hedge Accounting

(a) Interest Related Transactions

The Bank manages interest rate risk arising from various assets and liabilities, such as Loans, Bills discounted, Deposits, etc., by using financial derivative transactions and applies deferred hedge accounting regulated by “Treatment for Accounting and Auditing of Application of Accounting Standard for Financial Instruments in Banking Industry” (the JICPA Industry Auditing Committee Report No.24, hereinafter “Report No.24”). In hedging activities to offset changes in the fair value of Deposits, Loans, etc., as hedged items, the Bank designates hedged items and interest rate swaps etc. as hedging transactions by grouping them by their maturities. As for cash-flow-hedge, the effectiveness of the hedge is assessed by confirming the correlation between the volatility factor of interest rate for hedged items and for hedging transactions.

In accordance with “Temporary Treatment for Accounting and Auditing concerning Application of Accounting Standard for Financial Instruments in Banking Industry” (the JICPA Industry Auditing Committee Report No.15), the Bank had adopted “Macro Hedge Accounting” to account for certain interest related derivatives, which were utilized to manage interest rate exposure of certain changes of transactions such as loans and deposits. Deferred hedge gain (losses) resulted from “Macro Hedge Accounting” are amortized over the remaining period for each hedging transaction.

At the balance sheet dates, deferred hedge gain and losses (before net of taxes) resulted from “Macro Hedge Accounting” are 10,527 million yen and 11,078 million yen, respectively.

(b) Currency Related Transactions

The Bank manages foreign exchange risks arising from various assets and liabilities denominated in foreign currencies by using financial derivative transactions and applies deferred hedge accounting in accordance with “Treatment for Accounting and Auditing of Application of Accounting Standard for Foreign Currency Transactions in Banking Industry” (the JICPA Industry Auditing Committee Report No.25, hereinafter “Report No.25”).

The Bank designates specific currency swaps and foreign exchange swaps made to mitigate foreign exchange risks arising from monetary claims and debts denominated in foreign currencies as hedging transactions. The effectiveness of the hedge is assessed by confirming that the monetary claims and debts denominated in foreign currency as hedged items exceed the position of those hedging transactions. The Bank also applies fair value hedge to mitigate foreign currency exchange rate exposure in available-for-sale securities denominated in foreign currencies (other than bonds) as “Portfolio Hedges” when hedged foreign currency securities are specified in advance to the inception of the transactions and spot liabilities and forward liabilities exist on a foreign currency basis that exceed acquisition costs of the foreign currency securities designated as hedged items.

(c) Internal Hedge Transactions and others

Gain and losses arisen from hedging instruments such as interest rate swaps and cross currency swaps between consolidated companies and between the trading account and other accounts are either accounted as gain, losses or deferred as asset, liability or net asset and are not eliminated. This treatment is allowed by Report No.24 and 25, under which the Bank operated strictly and non-arbitrarily in conformity with the standard equivalent to the third-party cover transactions that are required for hedge qualification.

The Bank also applies the individual deferred hedge accounting to specific assets and liabilities. Consolidated subsidiaries apply the individual deferred hedge accounting, the individual fair value hedge accounting and the accrual-basis hedge accounting on interest rate swaps.

14. National and Local Consumption Taxes

National and local consumption taxes of the Bank and consolidated subsidiaries are accounted for using the tax-exclusion method. However, consumption taxes not eligible for deduction such as those with purchasing properties are charged to expenses.

Changes of Basic Significant Items in the Preparation of Consolidated Financial Statements

1. Implementation Guidance on Determining a Subsidiary and an Affiliate

As “Implementation Guidance on Determining a Subsidiary and an Affiliate” (Accounting Standards Board of Japan Implementation Guidance No.22) was adopted from the fiscal year beginning on and after October 1, 2008, the Bank has started to adopt this implementation guidance from the first half of the fiscal year 2009.

This adoption did not affect the consolidated financial statements for the first half of the fiscal year 2009.

Notes for the Balance Sheets

1. Delinquent Loans

Loans in bankruptcy proceedings and other delinquent loans are 19,178 million yen and 286,398 million yen, respectively.

Loans in bankruptcy proceedings are non-accrual loans outstanding (not including direct write-off portion of loans) to borrowers who are legally bankrupt as defined in the Paragraph 1, Item 3 and 4 of Article 96 of “Enforcement Ordinance for the Corporation Tax Law” (Cabinet Order No.97, 1965).

Other delinquent loans are non-accrual loans other than (i) loans in bankruptcy proceedings and (ii) loans of which interest payments are rescheduled in order to assist the restructuring of borrowers.

2. Loans more than Three Months Past Due

Loans more than three months past due amounted to 40 million yen.

Loans more than three months past due are those loans for which principal or interest payments are more than three months past due from the date succeeding the due date, excluding those loans classified as delinquent loans.

3. Restructured Loans

Restructured loans amounted to 43,665 million yen.

Restructured loans are those loans whose terms have been relaxed to support borrowers who are in financial difficulties excluding delinquent loans and loans more than three months past due.

4. Total of Delinquent Loans, Loans more than Three Months Past Due and Restructured Loans

The total of loans in bankruptcy proceedings, other delinquent loans, loans more than three months past due and restructured loans amounted to 349,283 million yen. Those amounts described in 1 to 4 above are before deducting Reserve for possible loan losses.

5. Bills Discounted

The Bank treats bills discounted as financial transaction, which are regulated by Report No.24. The Bank holds the right to sell or pledge such bills discounted at its discretion and the total face value of these bills amounted to 3,252 million yen.

6. Assets Pledged as Collateral

Following parts of the assets are pledged as collateral:

Trading Assets	391,879 million yen
Securities	1,478,771 million yen
Loans and Bills Discounted	721,102 million yen
Lease Receivables and	
Investment Assets	1,592 million yen
Other Assets	14,086 million yen
Corresponding Liabilities of the Assets Pledged as Collateral:	
Deposits	33,012 million yen
Call Money	31,577 million yen
Payables under	
Repurchase Agreements	972,446 million yen
Borrowed Money	67,397 million yen

In addition to the items outlined above, "Securities" of 706,257 million yen and "Other Assets" of 172 million yen are pledged mainly as collateral in substitution for settlement of cash or margin of future markets. "Other Assets" includes margin of future markets of 1,381 million yen, security deposits of 16,588 million yen and cash collateral for derivative transactions of 25,863 million yen.

7. Commitment Line Contracts on Overdrafts and Loans

Commitment line contracts on overdrafts and loans are agreements to loan up to committed limit as long as there have been no breach of contracts upon the customers' request. The balance of unused commitment line contracts is 8,566,538 million yen, including 7,135,622 million yen of those either maturing within 1 year or unconditionally cancelable.

Because most of these contracts expire without being drawn down, the balance of unused commitment line contracts itself does not necessarily represent future cash flows of the Bank and its subsidiaries. In addition, most of these contracts contain clauses allowing the Bank and its subsidiaries to reject requests or reduce committed limits, when there are reasonable reasons such as changes in financial condition, needs to protect claims and other similar necessities. The Bank and its subsidiaries may request the customer to provide collateral such as real estate or securities at the time of the contract, and may ask customers to amend clauses or take measures to secure soundness of the credit thereafter through periodical internal monitoring procedures that have already been in place.

8. Revaluation Reserve for Land

In accordance with "Act on Revaluation of Land" (Law No.34, promulgated on March 31, 1998, hereinafter the Act), the Bank revaluated land used for business operations. Net unrealized losses on revaluation deducted by "Deferred Tax Liabilities for Land Revaluations" are recorded as "Revaluation Reserve for Land" in "Net Assets."

Revaluation Date: March 31, 1999

Revaluation method as stipulated in

the Paragraph 3, Article 3 of the Act:

Revaluations are based on land prices of standardized premises as specified by the Paragraph 1, Article 2 of the "Enforcement Order on Act on Revaluation of Land," and the land prices specified in the Article 4 of the Act after relevant adjustments.

9. Accumulated Depreciation of Tangible Fixed Assets

Accumulated depreciation of "Tangible Fixed Assets" is 99,408 million yen.

10. Borrowed Money

"Borrowed Money" includes subordinate debt of 145,000 million yen.

11. Bonds Payable

"Bonds Payable" includes subordinate bonds of 516,776 million yen.

12. Principal of Guaranteed Trust Account

Principals of Jointly-operated Money Trusts (hereinafter "JOMTs") and Loan trust, whose repayment of the principal is guaranteed by the Bank, are 602,992 million yen and 122,038 million yen, respectively.

13. Guarantee Liabilities for Privately-offered Corporate Bonds

The Bank guaranteed 87,970 million yen of corporate bonds in "Securities" which were privately offered (subject to the Paragraph 3, Article 2 of the FIEA).

Notes for the Statements of Income

1. Other Income

“Other Income” includes gain on sales of stocks and other securities of 7,892 million yen, and the dividend income from STB Finance Cayman Ltd., (a financial subsidiary of the Bank) of 9,469 million yen, that resulted from gain on partial retirement of pound basis perpetual subordinated bonds on May 29, 2009.

2. Other Expenses

“Other Expenses” includes provision for reserve for possible loan losses of 27,794 million yen, and losses on devaluation of stocks and other securities of 12,869 million yen.

Notes for the Statement of Changes in Net Assets

1. Issued Shares and Treasury Stock

Issued shares and Treasury stock are as follows:

	Thousands of Shares			
	At the End of Previous Period	Increase	Decrease	At the End of Current Period
September 30, 2009				
Number of Issued Shares:				
Common Share	1,675,128	—	—	1,675,128
The First Series of Class 2 Preferred Shares	—	109,000	—	109,000
Total	1,675,128	109,000	—	1,784,128
Treasury Stock:				
Common Share	525	21	6	541

Notes: 1. The First Series of Class 2 Preferred Shares increased by 109,000 thousand due to issuance by way of a third-party allotment.

2. Treasury stock increased by 21 thousand due to requests for redemption of odd-lot stocks.

3. Treasury stock decreased by 6 thousand due to requests for additional purchase of odd-lot stocks.

2. Dividends

Dividends are as follows:

Resolution	Type of Shares	Millions of Yen	Yen	Record Date	Effective Date
		Cash Dividends Declared	Cash Dividends per Share		
June 26, 2009 Ordinary General Meeting of Shareholders	Common Share	¥ 2,511	¥ 1.50	March 31, 2009	June 29, 2009

Dividends, which record date is during the first half of the fiscal year and effective date of distribution is after the first half of the fiscal year, are as follows:

Resolution	Type of Shares	Millions of Yen	Resources Allotted for the Distribution	Yen	Record Date	Effective Date
		Cash Dividends Declared		Cash Dividends per Share		
November 13, 2009 Board of Directors' meeting	Common Share	¥ 8,372	Retained Earnings	¥ 5.00	September 30, 2009	December 4, 2009
	The First Series of Class 2 Preferred Shares	¥ 341	Retained Earnings	¥ 3.13	September 30, 2009	December 4, 2009

Notes for the Statements of Cash Flows

1. Cash and Cash Equivalents

In preparing the consolidated statement of cash flows, “Cash and Due from Bank of Japan” in the case of the Bank, and “Cash

and Due from Banks” in the case of the consolidated subsidiaries, are considered “Cash and Cash Equivalents.”

2. Reconciliation of Cash and Cash Equivalents

	Millions of Yen	Millions of U.S. Dollars
Cash and Due from Banks	¥ 1,220,329	\$ 13,526
Due from Banks (excluding due from Bank of Japan)	(266,454)	(2,953)
Cash and Cash Equivalents	¥ 953,875	\$ 10,573

Subsequent Events

1. Acquisition of Nikko Asset Management Co., Ltd.

On October 1 2009, the Bank has acquired 98.55% shares of Nikko Asset Management Co., Ltd. held by Citigroup Japan Holdings Corp. and other shareholders.

- (1) Number of shares 194,152,500 common shares
- (2) Acquisition price 112.4 billion yen (needs adjustment)
- (3) Date of acquisition October 1, 2009
- (4) Shareholding ratio 98.55% of all outstanding shares (except shares held by Nikko Asset Management’s Employee Share Ownership Plan)

2. Management Integration of the Bank and Chuo Mitsui Trust Holdings, Inc.

On November 6 2009, the Bank and Chuo Mitsui Trust Holdings, Inc. (hereinafter “CMTH”) reached a basic agreement on the management integration of two groups by share exchange and the merger of the Chuo Mitsui Trust and Banking Company, Limited.(hereinafter “CMTB”) and Chuo Mitsui Asset Trust and Banking Company, Limited.(hereinafter “CMATB”) by the Bank.

(1) Objective of the management integration

The objective is to form “The Trust Bank,” a new trust bank group that, with the combination of their expertise and comprehensive capability, can provide its clients with better and swifter comprehensive solutions than ever before. To create the new trust bank group, the Bank and CMTH plan to combine their personnel, know-how and other managerial resources and to fuse both groups’ strengths such as CMTH Group’s agility and the Bank Group’s diversity.

(2) Way of the share exchange between the Bank and CMTH

CMTH will be a new holding company and the Bank will be a complete subsidiary of the new holding company.

(3) Target date for the management integration

April 1, 2011, subject to the approval of both groups’ shareholders and relevant authorities

(4) Way of the merger of the three trust banks

The Bank will be a surviving company, merging CMTB and CMATB.

(5) Target date for the merger of the three trust banks

April 1, 2012, subject to the approval of both groups’ shareholders and relevant authorities

Definitions :

- (1) Loans in bankruptcy proceedings are non-accrual loans outstanding (not including direct write-off portion of loans) to borrowers who are legally bankrupt as defined in the Paragraph 1, Item 3 and 4 of Article 96 of "Enforcement Ordinance for the Corporate Tax Law" (Cabinet Order No.97, 1965).
- (2) Other delinquent loans are non-accrual loans other than 1) loans in bankruptcy proceedings and 2) loans of which interest payments are rescheduled in order to assist the restructuring of borrowers.
- (3) Loans more than three months past due are those loans for which principal or interest payments are more than three months past due from the date succeeding the due date, excluding those loans classified as loans in bankruptcy proceedings and other delinquent loans.
- (4) Restructured loans are those loans whose terms have been relaxed to support borrowers who are in financial difficulties, excluding delinquent loans and loans more than three months past due.

Note: Guaranteed trust, the principals of which are guaranteed, are constituted by "Loan Trusts" and Jointly-Operated Money Trusts ("JOMTs") included in "Money Trusts."

Risk Management

Capital Adequacy Ratio

Consolidated

We calculate the BIS capital adequacy ratio on both a consolidated and non-consolidated basis in line with provisions of Article 14-2 of the Banking Law and on the basis of calculation formulae prescribed under the criteria for judging whether a bank's capital adequacy ratio is appropriate in light of assets held (the Financial Services Agency 2006 Notification No.19, hereinafter referred to as the "Notification"). Applying uniform international standards, we have adopted the Foundation Internal Ratings-Based (IRB) Approach for the calculation of credit risk-weighted assets and the Standardized Approach for the calculation of operational risk, and also introduced market risk regulations.

BIS Capital Adequacy Ratio

*1 As of September 30, 2009, deferred tax assets total ¥132,304 million in net terms. The upper limit on the inclusion of deferred tax assets in capital is ¥253,742 million.

*2 Listed in the Notification Article 5, Paragraph 2, i.e. stocks and other securities with high probability of redemptions through such measures as attachment of step-up interest rate clauses (including noncumulative preferred securities issued by overseas special purpose companies).

*3 Debt capital listed in the Notification Article 6, Paragraph 1, 4 that have all of the characteristics listed below:

- (1) Paid-up debts unsecured and subordinate to other debts
- (2) Not redeemable, except for certain cases
- (3) Used for compensation of loss while continuing business
- (4) Allowed to defer interest payment obligations

*4 Listed in the Notification Article 6, Paragraph 1, 5 and 6. However, subordinated term debts are limited to those with an original maturity of over five years.

*5 Listed in the Notification Article 8, Paragraph 1, 1 through 6, and include the amounts equivalent to intentional holdings of other financial institutions' capital funding means and the amounts equivalent to investments in those provided for under the Notification Article 8, Paragraph 1, 2.

*6 We received an external audit by KPMG AZSA & Co. of the calculation of the consolidated BIS capital adequacy ratio in line with 'Agreed Upon Methods for the Implementation of Capital Adequacy Ratio Audits' (Pronouncement 30 of the Japanese Institute of Certified Public Accountants, Bank Auditing Committee, June 12, 2007).

The external audit is not part of the accounting audit of the consolidated financial statements but was conducted on parts of the internal risk management framework concerning the calculation of the consolidated BIS capital adequacy ratio under agreed-upon examination procedures and is a report of the results. It thus does not represent an opinion by the external auditor regarding the consolidated BIS capital adequacy ratio itself or parts of the internal control which concern the ratio.

Details of preferred securities issued by overseas special purpose companies included in the Tier I of capital for consolidated BIS capital adequacy ratio calculation are the following:

1. Issuer	STB Preferred Capital 2 (Cayman) Limited	STB Preferred Capital 3 (Cayman) Limited	STB Preferred Capital 4 (Cayman) Limited	STB Preferred Capital 5 (Cayman) Limited
2. Description of Securities	Noncumulative Preferred Securities	Same as on the left	Same as on the left	Same as on the left
3. Maturity	Perpetual (the Securities may be redeemed in whole or in part on any dividend payment date on or after seven years from the issuance at the option of the Issuer subject to the prior approval of the holders of the common shares and applicable regulatory requirements).	Perpetual (the Securities may be redeemed in whole or in part on any dividend payment date on or after ten years from the issuance at the option of the Issuer subject to the prior approval of the holders of the common shares and applicable regulatory requirements).	Same as on the left	Perpetual (the Securities may be redeemed in whole or in part on any dividend payment date on or after five years from the issuance at the option of the Issuer subject to the prior approval of the holders of the common shares and applicable regulatory requirements).
4. Dividend Rate	<1st year - 10th year > Fixed Rate <Thereafter> Step-up Floating Rate	Same as on the left	Series A <1st year - 10th year > Fixed Rate <Thereafter> Step-up Floating Rate Series B <1st year - 10th year > Fixed Rate <Thereafter> Non Step-up Floating Rate	<1st year - 5th year > Fixed Rate <Thereafter> Non Step-up Floating Rate
5. Issue Amount	¥50 billion	¥50 billion	Series A ¥56 billion Series B ¥54 billion	¥70 billion
6. Issue Date	December 7, 2005	March 2, 2007	June 24, 2008	December 18, 2008
7. Outline of Dividend Payment	Dividends are payable by the Issuer in the presence of distributable amount of the Bank in conformity with the calculation of preferred shares of the bank. If the Bank pays any dividends on any of its common share with respect to any financial year of the Bank, then the Issuer will be required to pay full dividends on the Securities for the applicable year.	Same as on the left	Same as on the left	Same as on the left
8. Dividend Limitation	Dividends will not be paid if any of certain criteria have met. The criteria include the following: When the Bank did not pay dividend on any class of preferred shares. When the Bank's BIS capital adequacy ratio or Tier I capital ratio is to decline below the minimum percentages required by Japanese banking regulations.	Same as on the left	Same as on the left	Same as on the left
9. Rights to the Remaining Assets	The Securities are intended to provide holders, through the perpetual subordinated loan to the Bank, with rights to remaining assets that are the same as those to which holders would be entitled if they had purchased noncumulative nonvoting perpetual preferred share issued directly by the Bank.	Same as on the left	Same as on the left	Same as on the left

Average Balance during the Period	¥ 20,006,316	¥ 15,288,768	¥ 3,808,268	¥ 909,279	—

Notes: 1 Exposures subject to the calculation of credit risk-weighted assets excluding those subject to funds, securitization, other assets and those excluded from the application.

2 "Others" in the industry sectors include non-residents and state public services. Exposures for the duration of over five years include those with no fixed maturities.

3 "Average balance during the period" is the average figure of those as of September 30, 2008; March 31, 2009; and September 30, 2009.

4 The above data represents amounts after credit risk mitigation effects of netting contracts allowed under the law and the netting against the company's cash balance.

5 The above data represents exposures to original debtors in loan participations.

6 Pursuant to the revision of Japan Standard Industrial Classification (November 2007), presentation of industry sectors has been partially modified from the end of September 2009.

Sovereign Exposures	(8)	(8)	0	(1)	(8)
Bank Exposures	(75)	(75)	15	—	(90)
Equity Exposures under the PD/LGD Approach	—	—	—	—	—
Retail Exposures	664	(387)	1,578	(1,224)	(913)

Note: Of total credit costs, only those that can be identified as stemming from specified asset classes are shown in the table.

Factor Analysis

Losses in the first half of fiscal year 2009 increased ¥17.6 billion year on year, the main reason for which being write-offs of loans and allowances for loan losses due to the increase in loans to at risk of bankruptcy debtors and other non-performing loans.

(7) Estimated Credit Losses

	Millions of Yen	
	Estimated Credit Losses	Actual Credit Losses
Corporate Exposures	¥ 155,291	¥ 62,075
Sovereign Exposures	474	45
Bank Exposures	612	(15)
Equity Exposures under the PD/LGD Approach	376	—
Retail Exposures	11,658	1,455

Notes: 1 Estimated credit losses are the average of estimates calculated as of March 31, 2007; September 30, 2007; March 31, 2008; September 30, 2008; March 31, 2009 and September 30, 2009. Estimated credit losses for retail exposures are the average of estimates calculated as of March 31, 2008; September 30, 2008; March 31, 2009 and September 30, 2009.

2 Actual credit losses are the sum of losses for one year ended September 30, 2009.

Securitization Exposures (Originator)

Consolidated

First Half of Fiscal Year 2009

(1) Outline of Securitizations during the First Half of Fiscal Year 2009, Type and Status of Principal Underlying Assets

We conducted the following single securitization transaction as an originator during the first half of fiscal year 2009.

Date of Securitization:	April 2009		
Type of Underlying Assets:	Mortgage Loans		
Aggregate Sum of Underlying Assets:	¥21,108 million (at the time of securitization), ¥20,090 million (as of the end of September 2009)		
Type of Transaction:	Asset transfer-type securitization transaction		
Rating Agency:	Standard & Poors Rating Services (S&P)		
Initial Issue Amount:	Preferred Beneficially Notes	¥ 19,500 million (AAA/S&P)	
	Subordinated Beneficially Notes	¥ 1,608 million (no rating)	
Date of Redemption:	January 2046		

We hold part of the exposures related to this securitization transaction, and quantitative data in (2)–(9) below include data related to this securitization transaction.

(2) Amounts of Securitization Exposures Held and Breakdown of Principal Underlying Assets by Type

Interest Rate Risk in the Banking Account

Consolidated

Gains/Losses and Changes in Economic Value due to Interest Rate Shocks under the Internal Control Management used by the Consolidated Group

• Outlier Ratio

	Sep. 30, 2009	Sep. 30, 2008
Overall Amount of Interest Rate Risk	¥ 77.9 billion	¥ 132.1 billion
Japanese Yen Interest Rate	25.9 billion	56.8 billion
U.S. Dollar Interest Rate	32.8 billion	22.8 billion
Euro Interest Rate	15.6 billion	52.1 billion
Outlier Ratio	4.1%	7.4%

Notes: 1 Our interest rate fluctuation scenario assumes an interest rate shock consisting of the 1st and 99th percentile of the fluctuation range measured for a one year holding period and a minimum observation period of five years.

2 Our risk measurement method uses the interest rate sensitivity approach. Core deposits are defined as the lowest of the following three items, as an upper limit, for the five-year maturity (an average term of 2.5 years): 1) the lowest balance of deposits in the past five years, 2) the balance after deducting the maximum annual outflow of deposits in the past five years from the current balance of deposits, or 3) the amount equivalent to 50% of the current balance of deposits.

Ratio of Noncumulative Preferred Securities with Step-up Interest Rate Clauses to Tier I Capital = a/A x 100 (%)	11.75	13.57	13.81

*1 As of September 30, 2009, deferred tax assets total ¥113,963 million in net terms. The upper limit on the inclusion of deferred tax assets in capital is ¥265,512 million.

*2 Listed in the Notification Article 17, Paragraph 2, i.e. stocks and other securities with high probability of redemptions through such measures as attachment of step-up interest rate clauses (including noncumulative preferred securities issued by overseas special purpose companies).

*3 Debt capital listed in the Notification Article 18, Paragraph 1, 4 that have all of the characteristics listed below:

- (1) Paid-up debts unsecured and subordinate to other debts
- (2) Not redeemable except for certain cases
- (3) Used for compensation of loss while continuing business
- (4) Allowed to defer interest payment obligations

*4 Listed in the Notification Article 18, Paragraph 1, 5 and 6. However, subordinated term debts are limited to those with an original maturity of over five years.

*5 Listed in the Notification Article 20, Paragraph 1, 1 through 5, and include the amounts equivalent to intentional holdings of other financial institutions' capital funding means.

*6 We received an external audit by KPMG AZSA & Co. of the calculation of the non-consolidated BIS capital adequacy ratio in line with 'Agreed Upon Methods for the Implementation of Capital Adequacy Ratio Audits' (Pronouncement 30 of the Japanese Institute of Certified Public Accountants, Bank Auditing Committee, June 12, 2007).

The external audit is not part of the accounting audit of the non-consolidated financial statements but was conducted on part of the internal risk management framework concerning the calculation of the non-consolidated BIS capital adequacy ratio under agreed-upon examination procedures and is a report of the results. It thus does not represent the opinion of the external auditor regarding the non-consolidated BIS capital adequacy ratio itself or parts of the internal control which concern the ratio.

Details of preferred securities issued by overseas special purpose companies included in “Others” of the Tier I of capital for non-consolidated BIS capital adequacy ratio calculation are the following:

1. Issuer	STB Preferred Capital 2 (Cayman) Limited	STB Preferred Capital 3 (Cayman) Limited	STB Preferred Capital 4 (Cayman) Limited	STB Preferred Capital 5 (Cayman) Limited
2. Description of Securities	Noncumulative Preferred Securities	Same as on the left	Same as on the left	Same as on the left
3. Maturity	Perpetual (the Securities may be redeemed in whole or in part on any dividend payment date on or after seven years from the issuance at the option of the Issuer subject to the prior approval of the holders of the common shares and applicable regulatory requirements).	Perpetual (the Securities may be redeemed in whole or in part on any dividend payment date on or after ten years from the issuance at the option of the Issuer subject to the prior approval of the holders of the common shares and applicable regulatory requirements).	Same as on the left	Perpetual (the Securities may be redeemed in whole or in part on any dividend payment date on or after five years from the issuance at the option of the Issuer subject to the prior approval of the holders of the common shares and applicable regulatory requirements).
4. Dividend Rate	<1st year - 10th year > Fixed Rate <Thereafter> Step-up Floating Rate	Same as on the left	Series A <1st year - 10th year > Fixed Rate <Thereafter> Step-up Floating Rate Series B <1st year - 10th year > Fixed Rate <Thereafter> Non Step-up Floating Rate	<1st year - 5th year > Fixed Rate <Thereafter> Non Step-up Floating Rate
5. Issue Amount	¥50 billion	¥50 billion	Series A ¥56 billion Series B ¥54 billion	¥70 billion
6. Issue Date	December 7, 2005	March 2, 2007	June 24, 2008	December 18, 2008
7. Outline of Dividend Payment	Dividends are payable by the Issuer in the presence of distributable amount of the Bank in conformity with the calculation of preferred shares of the bank. If the Bank pays any dividends on any of its common share with respect to any financial year of the Bank, then the Issuer will be required to pay full dividends on the Securities for the applicable year.	Same as on the left	Same as on the left	Same as on the left
8. Dividend Limitation	Dividends will not be paid if any of certain criteria have met. The criteria include the following: When the Bank did not pay dividend on any class of preferred shares. When the Bank's BIS capital adequacy ratio or Tier I capital ratio is to decline below the minimum percentages required by Japanese banking regulations.	Same as on the left	Same as on the left	Same as on the left
9. Rights to the Remaining Assets	The Securities are intended to provide holders, through the perpetual subordinated loan to the Bank, with rights to remaining assets that are the same as those to which holders would be entitled if they had purchased noncumulative nonvoting perpetual preferred share issued directly by the Bank.	Same as on the left	Same as on the left	Same as on the left

(6) Actual Credit Losses in the Current Period and Year-on-Year Change

	Millions of Yen				
	Six Months Ended Sep. 30, 2009		Six Months Ended Sep. 30, 2008		Change in Actual Credit Losses
	Actual Credit Losses	Writebacks	Actual Credit Losses	Writebacks	
Corporate Exposures	¥ 27,561	¥ (20,651)	¥ 8,893	¥ (10,020)	¥ 18,668
Sovereign Exposures	(8)	(8)	0	(1)	(8)
Bank Exposures	(75)	(75)	15	—	(90)
Equity Exposures under the PD/LGD Approach	—	—	—	—	—
Retail Exposures	293	(377)	1,236	(1,213)	(942)

Note: Of total credit costs, only those that can be identified as stemming from specified asset classes are shown in the table.

Factor Analysis

Losses in the first half of fiscal year 2009 increased ¥17.6 billion year on year, the main reason for which being write-offs of loans and allowances for loan losses due to the increase in loans to at risk of bankruptcy debtors and other non-performing loans.

(7) Estimated Credit Losses

	Millions of Yen	
	Estimated Credit Losses	Actual Credit Losses
Corporate Exposures	¥ 155,239	¥ 62,075
Sovereign Exposures	474	45
Bank Exposures	612	(15)
Equity Exposures under the PD/LGD Approach	376	—
Retail Exposures	10,511	564

Notes: 1 Estimated credit losses are the average of estimates calculated as of March 31, 2007; September 30, 2007; March 31, 2008; September 30, 2008; March 31, 2009 and September 30, 2009. Estimated credit losses for retail exposures are the average of estimates calculated as of March 31, 2008; September 30, 2008; March 31, 2009 and September 30, 2009.

2 Actual credit losses are the sum of losses for one year ended September 30, 2009.

Total	¥ 873,041	¥ 23,246	¥ 1,188,013	¥ 46,132

(3) Amount of Securitization Exposures by Type of Principal Underlying Assets Deducted from Capital under Provisions of the Notification Article 247

	Millions of Yen	
	Sep. 30, 2009	Sep. 30, 2008
Housing Loans	¥ —	¥ —
Credit Card Loans, Consumer Loans	1,000	2,543
Auto Loans, Other Loans to Individuals	—	—
Commercial Real Estate-Secured Loans	—	—
Loans and Bonds to Corporates	4,088	19,583
Claims on Lease Payments	—	—
Accounts Receivable, Other Claims on Corporates	—	—
Total	¥ 5,089	¥ 22,126

(4) Amounts of Credit Risk-Weighted Assets Calculated with the Application of Transitional Measures with respect to Securitization Exposures

Not applicable as of the end of September 2009 and the end of September 2008.

Market Risk

Non-consolidated

(1) End of Period Value at Risk (VaR) and Maximum, Minimum and Mean VaR for the Period

• Market Risk in the First Half of Fiscal Year 2009

	Banking Account	Trading Account
As of Sep. 30, 2009	¥ 109.0 billion	¥ 0.9 billion
Maximum	183.2 billion	8.9 billion
Minimum	107.6 billion	0.6 billion
Mean	126.2 billion	1.9 billion

(For the October, 2008 - September, 2009 Period)

• Market Risk in the First Half of Fiscal Year 2008

	Banking Account	Trading Account
As of Sep. 30, 2008	¥ 126.6 billion	¥ 1.7 billion
Maximum	141.2 billion	2.1 billion
Minimum	81.2 billion	0.4 billion
Mean	112.3 billion	1.0 billion

(For the October, 2007 - September, 2008 Period)

VaR Measurement Standards

Banking Account	Confidence Interval: One-tailed 99%	Time Horizon: 21 business days	Observation Period: One Year
Trading Account	Confidence Interval: One-tailed 99%	Time Horizon: 1 business day	Observation Period: One Year

(2) Results of Back Testing and Reasons for Large Deviations between Actual Losses and VaR

• Back Testing of the Trading Account

First Half of Fiscal Year 2009

First Half of Fiscal Year 2008

Note: As shown above, for the first half of fiscal year 2009 back testing of the trading accounts shows three instances of losses in excess of VaR.

Capital Subscriptions or Equity Exposures in the Banking Account

Non-consolidated

	Millions of Yen							
	Sep. 30, 2009				Sep. 30, 2008			
	Book Value		Market Value		Book Value		Market Value	
Non-consolidated Book and Market Values*1

Capital Subscriptions or Equity Exposures not included in “Listed Equity Exposures”	47,229		47,229		74,759		74,759	
Amounts of Gains/Losses on Sale and Written-off of Capital Subscriptions or Equity Exposures*1,2	Gains/Losses	Gains	Losses	Written-off	Gains/Losses	Gains	Losses	Written-off
	(6,320)	7,886	1,501	12,706	(9,325)	3,594	1,151	11,768
Amounts of Unrealized Gains/Losses Recognized in the Non-consolidated Balance Sheets and not Recognized in the Non-consolidated Statements of Income			68,686				174,348	
Amounts of Unrealized Gains/Losses not Reported in the Non-consolidated Balance Sheets and Statements of Income ...	Not applicable				Not applicable			

*1 Figures for Available-for-Sale Securities include only Japanese and foreign stocks.

*2 Interim Non-consolidated Statements of Income figures for gains/losses on stock holdings and related written-off.

	Millions of Yen	
	Sep. 30, 2009	Sep. 30, 2008
	Amounts by Portfolio Category*	¥ 663,954
Outstanding Shares Held	470,291	619,307
Portfolios Adopting the Market-based Approach	55,513	58,899
Portfolios Adopting the PD/LGD Approach	138,148	116,883

* Amounts by portfolio category show exposures subject to the calculation of credit risk-weighted assets.

Exposures Held in Funds

Non-consolidated

	Millions of Yen	
	Sep. 30, 2009	Sep. 30, 2008
	Aggregate Sum of Exposures Held in Funds	¥ 237,503
Look-through Approach	157,034	212,718
Simple Majority Formula	31,806	50,565
Investment Criteria Formula	18,676	19,023
Internal Models Approach	—	—
Probability Approach	26,983	74,675
Others	3,002	1,692

Note: Exposures subject to the calculation of credit risk-weighted assets are shown.

Interest Rate Risk in the Banking Account

Non-consolidated

Gains/Losses and Changes in Economic Value due to Interest Rate Shocks under the Internal Control Management used by the Parent Company

• Outlier Ratio

	Sep. 30, 2009	Sep. 30, 2008
Overall Amount of Interest Rate Risk	¥ 64.7 billion	¥ 118.0 billion
Japanese Yen Interest Rate	12.8 billion	42.8 billion
U.S. Dollar Interest Rate	32.8 billion	22.7 billion
Euro Interest Rate	15.6 billion	52.1 billion
Outlier Ratio	3.3%	6.5%

Notes: 1 Our interest rate fluctuation scenario assumes an interest rate shock consisting of the 1st and 99th percentile of the fluctuation range measured for a one year holding period and a minimum observation period of five years.

2 Our risk measurement method uses the interest rate sensitivity approach. Core deposits are defined as the lowest of the following three items, as an upper limit, for the five-year maturity (an average term of 2.5 years): 1) the lowest balance of deposits in the past five years, 2) the balance after deducting the maximum annual outflow of deposits in the past five years from the current balance of deposits, or 3) the amount equivalent to 50% of the current balance of deposits.
